VIVIX<sup>®</sup>

POWERFUL PROTECTION FOR YOUR CELLS

The health of your cells strongly influences your overall health, and our cells are continuously damaged by environmental exposure. Your body even has an inflammatory response to food. Vivix Antioxidant Solution – a scientific breakthrough from Shaklee – contains a **multiple-patented, natural blend of diverse polyphenols** designed to protect against oxidative cell damage and even repair DNA.

Now 30% More Powerful\*

Prevents and repairs DNA damage\*

40% lower rate of telomere shortening†

13 times more powerful than resveratrol‡ alone\*

## It all starts with your cells

The health of your cells strongly influences your overall health, and your cells are continuously damaged by environmental exposure. Even the simple act of eating a meal can result in the formation of free radicals, which can damage cell components such as DNA and trigger normal inflammatory reactions that are thought to contribute to cell damage.

Vivix contains a **multiple-patented, natural** blend of diverse polyphenols designed to protect against oxidative cell damage. Our scientists have optimized the combination of different polyphenols to create a new, more balanced and powerful formula to **protect DNA** from oxidative stress and slow the formation of advanced glycation end-product (AGE) proteins, which can compromise cell integrity and longevity.

# Powerful Results

## Helps protect your cells against daily damage\*

Laboratory studies show that Vivix key ingredients prevent and even repair DNA damage. In a clinical study, these key ingredients were shown to blunt the inflammatory response that normally occurs from an unhealthy meal, which, over time, can lead to cell damage.

## 40% lower rate of telomere shortening†

In a preliminary clinical study, Shaklee users who took Vivix and multiple Shaklee supplements for at least five years had a 40% lower rate of telomere shortening across the adult age range compared with a healthy control group.

A statistical analysis projects that an 80-year-old Shaklee user would have the same telomere length as someone who's 41 years old.† Our telomeres gradually become shorter, and telomere length is thought to be a marker of overall health.

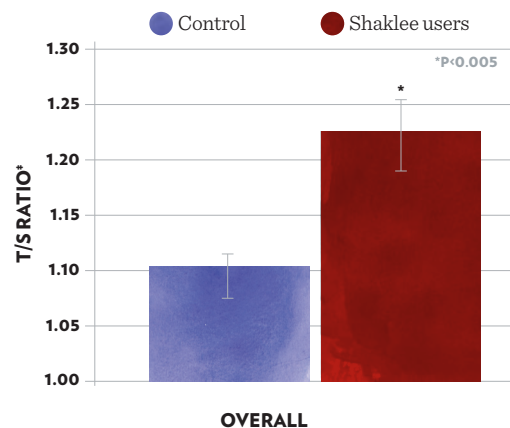

**TELOMERES** are protective caps of repetitive DNA at the end of chromosomes

## 13 times more powerful than resveratrol alone in slowing a key mechanism of cell damage\*

In laboratory studies, Vivix key ingredients help slow the formation of AGE (advanced glycation end-product) proteins, which can lead to cell damage.

Now!  
**13 times**  
 MORE POWERFUL  
 THAN RESVERATROL ALONE

## Shaklee users had longer telomeres

# Our Best, Most Comprehensive Nutritional System Ever

## Even better together

Vivix Liquigels are also available as part of our best, **most comprehensive nutritional system ever**: Shaklee Life. This proprietary plan is backed by **more than 10 patents** and was developed from **breakthrough clinical research** including the Landmark Study, one of the largest clinical studies of long-term supplementation. This science was combined with our Telomere Study to design the Shaklee Life-Strip, which includes **clinically proven nutrients to help provide the foundation for a healthier life**.

The new Shaklee Life-Strip delivers potent vitamins, minerals, polyphenols, antioxidants, and phytonutrients to help support optimal health.

- **NEW Vivix® Liquigels** with polyphenols to protect against oxidative cell damage
- **NEW Advanced Multivitamin** for complete nutrition to support bone and tissue health
- **NEW OmegaGuard® Plus** with ultra-concentrated omega-3 fatty acids (EPA and DHA) and coenzyme Q<sub>10</sub> for cardiovascular health
- **B+C Complex** to help the body metabolize carbohydrates, fats, and proteins
