

## **YOUTH® Look Younger Longer Event Presentation Script**

### **Cover slide: YOUTH®**

- Today I want to introduce you to a revolutionary anti-aging skin care system, along with a way to earn an extra income that can help put you on the path to creating a life you can truly love.

### **Slide 2: LOOK YOUNGER LONGER**

- What if you could look younger longer?
- At Shaklee, we've been helping people Live Younger Longer with our commitment to creating breakthrough innovations in the field of natural health for more than 60 years.
- And now those years of innovation have helped take skin care to the next level with YOUTH.
- Unlike ordinary skin care, our advanced technology in YOUTH targets the cellular level of your skin.
- Our promise is that YOUTH will not only dramatically improve the health of your skin but it will also 100% guarantee to shift the appearance of your skin to a younger age.
- YOUTH truly is designed to make sure the world sees you as young as you see yourself.

### **Slide 3: THE SKIN CARE MARKET IS GROWING**

- Why is now the perfect time for YOUTH?
- The global anti-aging skin care market will grow \$40 billion in 5 years.
- Although older consumers are still key to marketing efforts, younger consumers and men are becoming more aware of the value in taking care of their skin.

### **Slide 4: KEY AREAS OF SKIN CARE MARKET GROWTH**

- In the prestige skin care category, which includes YOUTH, natural and clinical products grew 10% in 2016, outpacing the total facial skin care market.
- This presents a great opening in the skin care market for YOUTH, as you'll see.

### **Slide 5: A DECADE OF AGING ERASED**

- When we were developing YOUTH, we knew it could help transform how people saw themselves and how the world saw them – but we wanted to prove it.
- That's why we engaged world-class skin experts to develop the Skin Age Index. This index uses factual, clinical data to measure the key areas of skin aging, including the appearance of facial wrinkles, pore size, even skin tone, firmness, skin texture, hyperpigmentation, and radiance.
- And by measuring with the Skin Age Index, we found that 100% of the women in our study were clinically proven to have the appearance of younger-looking skin after using YOUTH.

- Not only that, but two thirds of women shifted their skin age to a younger decade; that's a decade of aging erased!

#### **Slide 6: THE POWER OF BOTANICALS TO FIGHT THE CAUSES OF AGING**

- Key ingredients in YOUTH and our patent-pending Youth Complex are derived from nature and are botanically based.
- With eight patents and patents pending, each and every YOUTH product is specifically formulated to address the multiple causes of aging, whether it's your lifestyle, the effects of the environment, or natural aging.
- Botanicals packed with antioxidants and vitamins support collagen and elastin production, and structurally help provide more nutrients to the skin.

#### **Slide 7: CLINICAL RESULTS WITHOUT COMPROMISE**

- By focusing on potent botanicals derived from nature as some of the key ingredients in YOUTH, we've proved you don't have to sacrifice safety and purity for effectiveness. YOUTH provides your skin with clinical results without compromise.
- Today's skin care marketplace really covers the full spectrum – from companies that promise their products are “all natural” or “without harmful chemicals” and yet can't provide effective products, to companies that use an array of questionable ingredients in order to deliver results.
- No company, it seems, has been able to hit that sweet spot – where safety meets results.
- This is where YOUTH comes in!

#### **Slide 8: “FREE-OF” LIST**

- The fact is that we have a list of more than 2,500 ingredients that we'll NEVER use in our YOUTH products. We call it our “free-of” list.
- Our “free-of” list is far longer than the lists some other companies provide.
- Why is this so important? Because it's what so many people are looking for in the skin care marketplace today – and not finding.
- You can check out the full “free-of” list on our *Naturally* blog at [go.shaklee.com/naturally](http://go.shaklee.com/naturally).

#### **Slide 30: JULIE**

- When she started to build her Shaklee business in Canada, Julie was the single mother of a 4-year-old boy.
- Because of her Shaklee income, Julie was able to purchase her own home, send her son to school, and take him on several Shaklee incentive trips, including a cruise. She's since earned and enjoyed visits to such sunny destinations as Mexico and Hawaii, but says, "Among my favourite Shaklee memories would have to be two amazing trips: Paris and Kenya. I took my oldest son to Kenya. Both trips were once-in-a-lifetime chances, and they left me with memories I never dreamed would be possible."
- Since then, Julie has remarried, and while her four additional children keep her busy, her Shaklee business continues to grow.
- Currently, Julie is a Senior Key Coordinator. In 2016, that leadership level had an average annual income of \$85,275 in Canada.

#### **Slide 31: MARTHA & IVAN**

- Martha and Ivan were introduced to Shaklee in 1981. Like many successful Business Leaders, they started as product users. Martha was "desperately ill" at the time and wanted to do something about it. When she regained her health, she loved the products so much that she just had to share them.

- In 1990, she and Ivan became Shaklee Distributors, making the commitment to share the Shaklee business opportunity, too, helping thousands of people accomplish their physical and financial health goals, which enabled Martha and Ivan to achieve important goals of their own.
- As their business thrived, the couple began enjoying the tangible rewards of the Shaklee business, including travel to such exotic destinations as Bali, Kenya, Paris, and Bora Bora, and becoming members of the prestigious Shaklee Million Dollar Earners Club.
- More importantly, Shaklee products came into Martha's life when she needed them most. Today, she's a healthy and proud grandmother, a Wellness Coach at a holistic clinic, a speaker at international wellness conferences, and the author of more than 100 published health articles.
- Currently, Martha and Ivan are Master Coordinators. In 2016, that leadership level had an average annual income of \$160,820 in Canada.
