我们的使命：我们为每个人提供更健康的生活，更美好的人生

*Misi kami: Kami memberikan kehidupan yang lebih
sihat kepada setiap insan dan kehidupan yang
lebih baik kepada sesiapa jua*

Dear Shaklee Family,

At Shaklee, we understand good health is the key to a long and happy life. It impacts everything, from the way you look, to how you feel, and what you can achieve. As the number one natural nutrition company in the U.S., we are proud to offer you a world of healthy products that help you transform your health and the quality of your life.

Dr. Shaklee created one of the first multivitamins in 1915, and since then we have continued to create natural health products – the first protein isolate, one of the first fish oils, and our revolutionary Vivix™, and Cinch® products. We've invested nearly \$300 million in research and development, we use the highest-quality natural ingredients available, and we constantly leverage the collective knowledge of the best scientists in the world – all to give you products that are Always Safe, Always Work, and are Always Green. We care deeply about your health and the health of your family.

We are equally passionate about the health of our planet. Shaklee created one of the first biodegradable, nontoxic cleaning products in the U.S. We became the first company in the world to be Climate Neutral® certified to fully offset our carbon emissions, resulting in a net-zero impact on the environment. And we successfully completed a worldwide campaign to plant 1 million trees in partnership with the 2004 Nobel Peace Prize recipients, Dr. Wangari Maathai. Because we believe that if you take from nature to make the best natural health products, you should give back in equal part.

Today we are growing community of over 1.2 million people worldwide, sharing products that help others transform their health and their financial future. Our mission and our passion is to offer people the chance to dream again – to help people achieve both extra income and full financial freedom simply by referring our products to others who need them. We call that Social Marketing®, and we pioneered the idea more than 55 years ago.

We hope this Product Guide gives you insight into our healthy world, and we invite you to experience a healthier and better life.

Warmest regards,

致嘉康利众伙伴

嘉康利深知健康是长寿与快乐生活的秘诀。它影响着您的外观、感受和成就。身居美国首位的天然营养品公司，我们傲然向您展现能改变您健康和生活素质的营养补足品。

嘉康利医生在1915年研发出第一瓶综合维生素之后，就开始继续研造多种天然营养补足品，包括蛋白质分离物、鱼油、创新的Vivix™天然植物萃取液和Cinch®纤奇计划等产品。我们深切关注您的健康，并投资近3亿美金于研究与发展、选用最优质的天然材料、集结最佳的科学研究知识，就为了要提供天然纯净、安全无忧、功效卓越、品质保证的产品给您。

同样的，我们也关注环保。随此，嘉康利不只成为美国首家首个生产能生物降解、无毒性的清洁产品，同时也是全球首家获得完全抵销二氧化碳排放的「气候友好」认证的公司。我们也不忘与2004年诺贝尔和平奖得主，汪嘉利·麦赛博士(Dr. Wangari Maathai)合作，展开种植百万棵树的运动，因为我们深信大自然赋予我们天然营养，我们同样的也必须关爱它。

如今，我们在全球的120万会员不断与他人分享，就为了要帮助改善其他人的健康和经济能力。我们的使命就是要让他人重拾遗忘多年的梦想，既是仅仅以介绍产品给其他有需要的人士，就可以享有财务上的自由，所以自55年以前，我们就已率先推广Social Marketing®（人际推广）的理念。

谨此期望此产品手册能开拓您对我们健康世界的视野与观点，并邀请您体验更健康和美好的生活。

Buat Tatapan Keluarga Shaklee,

Kesihatan mempengaruhi sebahagian besar kehidupan kita. Sama ada penampilan luaran, perasaan dalaman dan kejayaan seseorang, semuanya bergantung kepada kesihatan. Di Shaklee, kami tahu kesihatan yang baik menjadi tunggak kebahagiaan hidup dan jangka hayat yang lebih panjang. Justeru itu, sebagai sebuah syarikat nutrisi semulajadi No. 1 di Amerika Syarikat, kami amat berbesar hati kerana dapat menawarkan anda rangkaian produk kesihatan yang dapat membantu meningkatkan taraf kualiti kesihatan dan kehidupan anda.

Dalam tahun 1915, Dr. Shaklee telah mencipta antara salah satu multivitamin pertama dan sejak itu kami meneruskan usaha murni tersebut dengan mencipta pelbagai produk kesihatan semulajadi yang lain. Antaranya adalah mencipta pengasingan protein yang pertama seumpamanya, menjadi salah satu peneraju dalam penghasilan minyak ikan; dan produk revolusi Shaklee iaitu Vivix™ dan Cinch®. Kami juga telah melaburkan hampir \$300 juta dolar Amerika dalam bidang pembangunan dan penyelidikan. Kami hanya menggunakan sumber asli terpilih dengan kualiti terbaik yang ada, dan sentiasa meneroka dalam pengumpulan penemuan-penemuan kajian sains terbaik dunia untuk memberikan produk yang Sentiasa Selamat, Sentiasa Berkesan dan Sentiasa Mesra Alam. Ini kerana kami amat prihatin dalam kebajikan kesihatan anda dan keluarga.

Dalam pada itu, kami juga rancak dalam menjaga kesihatan alam sekitar. Shaklee telah mencipta bahan pencuci rumusan biorosot bebas toksik pertama di Amerika Syarikat. Kami juga telah menjadi syarikat pertama dunia yang disahkan sebagai Climate Neutral® dalam menyekat pengeluaran karbon yang menghasilkan impak sifar pada alam sekitar. Selain itu, kami telah berjaya mencapai sasaran kempen menanam 1 juta pokok dengan kerjasama penerima anugerah Nobel Peace 2004, Dr. Wangari Maathai. Ini adalah kerana kami percaya, bila kita telah mengambil sumber alam terbaik untuk mencipta produk kesihatan untuk manusia, maka kita perlu kembalikan apa yang telah kita ambil darinya.

Dan hari ini kami merupakan komuniti yang pesat berkembang melebihi 1.2 juta orang di seluruh dunia dengan berkongsi pelbagai produk yang dapat membantu orang ramai mengubah nasib masa depan dari segi kesihatan juga kewangan. Misi dan hasrat kami adalah menawarkan peluang untuk setiap insan kembali menanam impian, membantu orang lain meraih pendapatan dan mencapai kebebasan kewangan hanya dengan berkongsi produk pada yang menginginkannya. Kami gelarkannya sebagai Social Marketing® dan kami telah lama dan berjaya melakukannya lebih 55 tahun yang lalu.

Kami harap buku Panduan Produk ini dapat memberi serba sedikit pengetahuan tentang dunia kesihatan, dan kami jemput anda bersama kami menyelami kehidupan yang lebih sihat dan lebih baik.

Salam hormat

The Shaklee Difference

At Shaklee we believe nature holds the answers to a long and healthy life. We strive to bring you life-enhancing products, and we want you to know we take extra ordinary measures to guarantee the quality and effectiveness of every product.

Always Safe

Safety is paramount at Shaklee and our standards are unsurpassed. We conduct up to 350 tests on every new ingredient for harmful contaminants, and we perform over 100,000 quality tests a year to ensure the greatest purity and potency possible.

Always Works

We are committed to delivering products that work. From the selection of the purest and most potent natural ingredients to the scientific and clinical proof found in over 100 scientific papers, Shaklee products deliver. Our 2007 Landmark Study showed that people who took Shaklee supplements over a 20-year period had markedly better health than those who took a multivitamin or no supplement at all.

But the greatest testament of all comes from the world-class explorers, the Shaklee-powered athletes who have won over 100 gold, silver, and bronze medals; and over 20 million of people just like you who have lived healthier, more productive lives because of Shaklee.

Always Green

For over 55 years we've led the environmental movement by example—from creating one of the first biodegradable cleaners in 1960 to becoming the first company in the world to be Climate Neutral® certified to fully offset our carbon gas emissions. We're committed to making truly sustainable products that are Safe for You, Your Home, and Your Planet.

嘉康利与众不同之处

嘉康利深信在大自然里蕴含着长寿和健康的秘诀，所以我们致力研发和生产能让您安心使用，品质保证的产品，只为了让您生活得愉快。

安全

在嘉康利，安全性是至关重要的，产品规格也非常卓越。每一种新原料都进行高达350种的严格测试，确定原料没有被污染。每年，我们也进行超过100,000种品质测试，以确保产品的纯净度及效能。

有效

我们承诺带给您有效的产品。从选择最纯净及最有效能的天然原料到经科学及临床试验证实（超过100份发表于专业科学杂志），嘉康利产品才被研发。2007年的里[Landmark Study]显示服食长达20年的嘉康利产品者比只服食单一综合维他命者及完全没有服食任何辅助品者远远来得更健康。

但是，最佳的证明是包括世界级的探险家，嘉康利赞助的荣获100多面金，银，铜牌的运动员，和上千万像您一样活得更健康更富有成效生活的嘉康利产品使用者。

环保

50多年以来，我们都是环保先锋—从1960年研发第一种可由生物分解的洗净剂到世界上第一家荣获“气候友好”（彻底无温室气体排放）荣誉的公司，我们承诺持续带给您，您的家居及您的地球更安全的产品。

Perbezaan Shaklee

Di Shakee kami percaya alam semulajadi merupakan jawapan untuk hidup yang lebih sihat dan jangka hayat lebih panjang. Justeru, kami gigih berusaha untuk memberikan produk terbaik bagi meningkatkan taraf hidup anda. Bahkan, anda juga perlu tahu yang kami amat teliti dalam menjamin kualiti dan mutu keberkesanan bagi setiap produk.

Sentiasa Selamat

Keselamatan amat penting di Shaklee dan standard kami tiada bandingannya. Kami menjalankan lebih daripada 350 ujian pada setiap ramuan baru untuk mengesan bahan pencemaran berbahaya, dan kami menjalankan lebih daripada 100,000 ujian kualiti setahun bagi memastikan ketulenan dan kebolehan potensi sebenar.

Sentiasa Berkesan

Kami bertanggungjawab dalam memberikan produk yang berkesan. Ia terbukti berkesan daripada pemilihan bahan-bahan semulajadi yang paling halus dan tulen sehinggalah bukti kajian sains dan makmal yang terdapat lebih daripada 100 bahan kajian penerbitan. Kajian yang dijalankan pada tahun 2007 menunjukkan bahawa mereka yang mengambil suplemen Shaklee selama lebih daripada 20 tahun mempunyai kesihatan yang lebih baik berbanding mereka yang mengambil suplemen lain ataupun mereka yang tidak mengambil suplemen langsung.

Bukan itu sahaja, malah bukti jelas yang lebih besar boleh dilihat daripada penjelajah bertaraf dunia, atlet yang telah diberi dengan suplemen Shaklee yang telah memenangi lebih daripada 100 medal emas, perak dan gangsa; dan juga berjuta-juta insan sama seperti anda yang telah hidup lebih sihat dan lebih produktif dengan kehadiran Shaklee.

Sentiasa Mesra Alam

Selama lebih daripada 55 tahun kami telah menjadi peneraju dalam pergerakan alam sekitar, daripada mencipta satu daripada pencuci biorosot pertama dalam tahun 1960 sehinggalah menjadi syarikat pertama di dunia yang diiktiraf sebagai Climate Neutral™ bagi mengimbangi pengeluaran gas rumah hijau kami. Kami bertanggungjawab dalam mencipta produk yang benar-benar selamat untuk anda, rumah anda juga bumi anda.

Transform Your Health

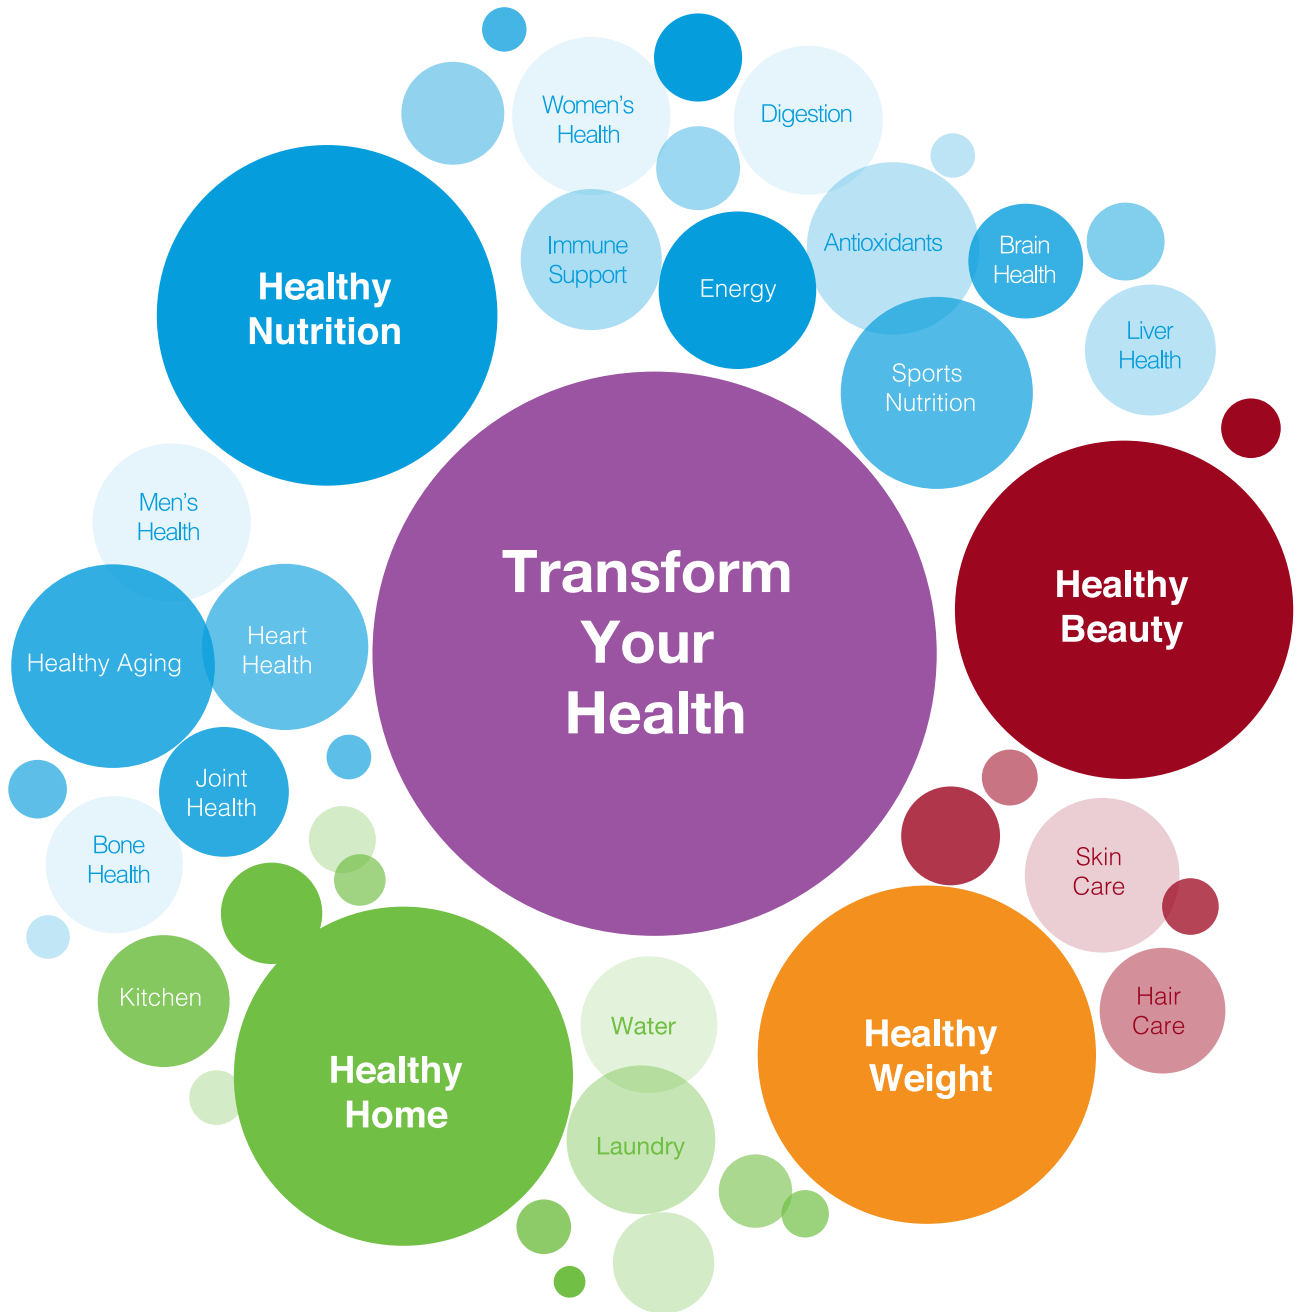

The choices we make every day play a critical role in shaping our future health— scientific research confirms that losing weight, eating healthfully, smart supplementation, and minimizing exposure to toxic chemicals in the home can help reduce the risk of future health problems. Shaklee is your choice for naturally safe, proven effective products designed to help create a healthier future for you and your planet.

改善您的健康

我们每天的选择影响到未来的健康，而科学研究证实减肥、健康的饮食、摄取补品和减少接触有毒化学物质将有助于降低健康问题。随此，采用天然纯净和品质保证的嘉康利产品将能令您和地球有着更美好、健康的将来。

Tingkatkan Kesehatan Anda

Pilihan yang kita buat hari demi hari merupakan peranan yang penting dalam membentuk kesehatan akan datang. Kajian saintifik mengesahkan yang mengawal berat badan, makan secara seimbang dan sihat, pengambilan suplemen yang baik dan kurang terdedah kepada bahan kimia serta toksin di rumah dapat mengurangkan risiko kesehatan di masa depan. Shaklee adalah pilihan semulajadi yang selamat, produk yang terbukti berkesan untuk membantu mencipta masa depan yang lebih sihat untuk diri anda juga bumi ini.

Changing Brands Can Change Your Life™

A groundbreaking study of long-term supplement users conducted in collaboration with researchers from the UC Berkeley School of Public Health and published in *Nutrition Journal* showed that people who took Shaklee supplements had markedly better health than people who took either a single multivitamin or no supplements at all.

Long-term Shaklee users demonstrated lower levels of these important heart health biomarkers, which are backed by the American Heart Association:

Research has shown self-rated health to be an excellent predictor of future health, and 8 out of 10 Shaklee users who participated in the Landmark Study described their health as being “very good” to “excellent.”

† Percentages reflect Shaklee supplement users compared with nonsupplement users.

更换品牌可改变您的生命

嘉康利与加利福尼亚大学伯克利分校合作的研究成果显示，食用嘉康利保健品的人较服用其他单一综合维生素或没有服用任何补品的人有着更佳的健康。

嘉康利健康营养系列的长期服用者显示出较好的心脏健康指数。此心脏健康指数并获得美国心脏协会的认同：

33% 降低甘油三酸酯*
高达33%

在体内及食物里，脂肪呈现于一种化学物质，也就是甘油三酸酯。低甘油三酸酯已证实对心脏健康有益。

59% 降低C反应蛋白*
高达59%

血液中的C反应蛋白是测量体内对抗生理压力的指标。更低的C反应蛋白会提升心脏健康。

11% 降低总胆固醇，
对高密度胆固醇*
的比率高达11%

高密度蛋白有助于减少血液中的“不好”的胆固醇。总胆固醇对高密度蛋白的比率更低已证实可以改善心脏健康。

33% 降低高半胱氨酸*
高达36%

高半胱氨酸是一种体内制造的氨基酸。更低的高半胱氨酸有助于最佳的心脏健康。

Tukar Jenama mampu Menukar Kehidupan Anda

Satu penemuan kajian terbaru yang dijalankan oleh gabungan pengkaji daripada UC Berkely School of Public Health terhadap pengguna suplemen dalam jangkamasa panjang menunjukkan mereka yang mengambil suplemen Shaklee memiliki tahap kesihatan yang lebih baik daripada mereka yang mengambil multivitamin lain ataupun yang tidak mengambil suplemen langsung.

Pengguna Shaklee dalam jangkamasa panjang menunjukkan paras yang lebih rendah bagi penanda aras untuk kesihatan jantung, disokong oleh Pertubuhan Jantung Amerika:

33% Paras trigliserida lebih rendah[†]

Lemak berbentuk kimia yang terdapat di dalam tubuh manusia dan makanan digelar trigliserida. Paras trigliserida yang rendah terbukti dapat menyokong kesihatan jantung.

59% Paras protein C-Reaktif lebih rendah[†]

Protein C-Reaktif (CRP) terdapat di dalam darah dan menjadi pengukur tindakan tubuh terhadap tekanan biologi. Paras Protein C-Reaktif yang lebih rendah boleh meningkatkan kesihatan jantung.

11% Nisbah jumlah kolesterol lebih rendah berbanding kolesterol HDL[†]

HDL kolesterol membantu menyingkirkan kolesterol 'jahat' dalam darah. Nisbah jumlah kolesterol yang rendah berbanding HDL kolesterol terbukti dapat menyokong kesihatan jantung.

33% Paras homocysteine lebih rendah[†]

Homosisteina adalah sejenis asid amino yang dihasilkan dalam tubuh secara semulajadi. Paras Homosisteina yang lebih rendah di dalam darah dapat menyokong kesihatan jantung pada tahap optimum.

Ketahui lebih lanjut di LandmarkStudy.com.

Kajian menunjukkan yang mengenalpasti kualiti tahap kesihatan bagi sesetengah penyakit menjadi penanda terbaik untuk kesihatan masa depan di mana 8 daripada 10 pengguna shaklee yang diuji menunjukkan kesihatan mereka meningkat dari 'Amat Baik' ke 'Cemerlang'.

[†] Peratus mewakili pengguna suplemen Shaklee berbanding pengguna yang tidak mengambil suplemen.

Alfalfa Complex

Deeply Rooted Nutrition

330 tablets / 33 servings

700 tablets / 70 servings

Alfalfa is a storehouse of nutrients. Its tap root reaches down as deep as 6 meters, searching out nutrients and minerals from deposits in the soil, while its leaves gather large amounts of chlorophyll through the natural process of photosynthesis.

Alfalfa Complex is a Shaklee Signature Formula originally developed by Dr. Shaklee in the 1950s. We use only alfalfa grown in California, ensuring a wide range of nutrients, including calcium, phosphorous, iron, and magnesium, as well as chlorophyll, bioflavonoids, trace minerals, and vitamins.

- Natural source of alfalfa
- Each serving provides 300mg of calcium, about as much as in a glass of milk

苜蓿可说是储存营养的仓库。其主根直达地底六米深，大量吸收蕴含在土壤中的丰富营养素和矿物质。其叶子则透过自然的光合作用过程，制造大量的叶绿素。

Alfalfa Complex沿用嘉康利博士早在1950年代研发的嘉康利独家配方配制而成。我们选用加利福尼亚州盛产纯正的苜蓿，以确保它富含各类养分，包括钙、磷、铁、镁及叶绿素、生物类黄酮、微量元素和维生素。

- 富含天然来源的苜蓿
- 每次服用分量能提供300 毫克的钙质，相等于一杯牛奶所含的钙质含量

Power of Protein for Long-Lasting Energy

增强体力的蛋白质

Protein Hebat untuk Tenaga Berkekalan

Protein is an essential building block for health—critical for muscle building and retention, tissue repair, immunity, and virtually every other function in the body. Protein also may help to ward off hunger and boost energy. Dr Shaklee created the first protein isolate in 1961 and our products contain the high quality soy and dairy proteins to help sustain energy, vitality, and stamina.

蛋白质加添精力

蛋白质是保持身体健康的重要化合物，包括构成和保有肌肉、修复细胞组织、免疫系统和身体各功能等都扮演着重要角色。它也有助于抑制饥饿感和增添精力。自嘉康利医生于1961年研发了蛋白质分离物后至今，我们的产品都含有能保持精力、活力和耐力的高品质大豆蛋白和乳蛋白。

Protein Hebat. Protein merupakan asas blok binaan untuk kesihatan yang kritikal dalam pembinaan dan pengekalan otot, pemulihan tisu, keimunan dan hampir keseluruhan fungsi tubuh. Selain itu, protein juga dapat membantu menangkis kelaparan dan melonjakkan tenaga. Dr Shaklee mencipta protein pengasingan pertama pada tahun 1961 dan produk kami mengandungi soya berkualiti tinggi dan protein tenusu yang membantu untuk mengekalkan tenaga, kecergasan dan stamina.

Soybeans (*Glycine max*). Naturally high in hunger-fighting protein. Found in Cinch® Shake Mix and ESP Soy Protein Isolate Powder. Shaklee uses a non-GMO form to deliver the high quality possible.

The glycemic index ranks carbohydrates based on their impact on blood sugar level. Carbohydrates that break down quickly have the highest glycemic indices (GI) while those with a low GI break down sugar slowly, releasing glucose in to your system. Keeping blood sugar levels low is important to weight loss and long term health.

食物血糖指数基于碳水化合物对血糖水平的影响程度来分级。迅速分解的碳水化合物拥有最高的血糖指数 (GI)，血糖指数低的碳水化合物以较慢的速度分解糖份，将葡萄糖释放进入人体器官。保持低血糖水平对减重与长期健康至为重要。

Indeks glisemik bagi peringkat karbohidrat adalah berdasarkan kesannya terhadap gula dalam darah. Karbohidrat yang cepat dicernakan mempunyai paras gula dalam darah yang tinggi manakala, tahap glisemik indeks yang rendah melepaskan gula ke dalam sistem secara perlahan. Phytocol-ST™

120 tablets / 120 servings

Research has shown that natural compounds called plant sterols and stanols, when added to healthy diet, can significantly benefit the health. Sterols and stanols are found naturally in plants, fruits, vegetables, and grains, and because their structure is similar to cholesterol, they compete for absorption, and therefore help to improve the health.

Phytocol-ST™ is a proprietary formulation that helps to maintain healthy body.

- Made with a blend of sterols and stanols.
- Delivers 2,000 mg of plant sterols and stanols daily.

120粒 / 120 次服用分量

研究证实，在健康饮食中添加植物固醇和甾醇这两种天然物质，能发挥更显著的保健效益。植物固醇和甾醇天然存在于植物、蔬果和谷类，其结构近似胆固醇，能与肠道中的胆固醇竞争，阻挡多余的胆固醇吸收。因此，有助于改善健康。

Phytocol-ST™ 是一项专利配方，有助于维持身体健康：

- 以植物固醇和甾醇配制而成
- 每天提供2,000毫克植物固醇和甾醇

Nutritional Facts

Each tablet provides:	Amount Per Tablet
Phytosterols (Provides 500 mg)	525 mg

120 tablet / 120 sajian

Beberapa kajian telah membuktikan bahawa pengambilan diet yang sihat dengan sterol dan stanol tumbuh-tumbuhan dapat memberikan manfaat yang ketara terhadap kesihatan. Sterol dan stanol adalah bahan semula jadi yang terdapat di dalam tumbuh-tumbuhan, buah-buahan, sayur-sayuran dan bijirin. Struktur molekulnya yang sama seperti kolesterol membolehkannya bersaing dengan kolesterol untuk penyerapan dan membantu meningkatkan kesihatan tubuh secara amnya.

Phytocol-ST™ ialah formula proprietari yang bermanfaat untuk menjaga kesihatan tubuh.

- Dirumus daripada sterol dan stanol.
- Membekalkan 2,000 mg sterol dan stanol tumbuh-tumbuhan setiap hari.

The same nutrients that help keep you healthy on the inside also play a huge role in how you look on the outside. So it only makes sense that your skin and hair care comes not from a cosmetics company, but from the company that knows nutrition, inside and out. See how beautiful healthy can be.

营养令您内在健康、外在亮丽。您肌肤与秀发的护理产品不应来自化妆公司，而是来自深深了解内在与外在营养的公司。健康塑造美，健康就是美！

Nutrien yang anda makan untuk kesihatan dalaman juga memainkan peranan penting dalam penampilan luaran anda. Justeru itu, seeloknya barang penjagaan kulit wajah dan rambut bukanlah dibeli daripada syarikat kosmetik tetapi dibeli daripada syarikat sama yang membekalkan nutrisi yang anda makan. Lihatlah bagaimana kesan kesihatan dalaman yang terpancar di wajah anda nanti.

NutriWhite® Skin Care

晶莹美白护肤系列

Flawless beauty sourced from nature, perfected by science.

以天然成分，经过科学萃取，让暗沉的肌肤容光焕发。

Developed by scientists and skincare experts in Japan and the U.S., NutriWhite® boasts 16 carefully selected herbal nutrients from 16 different countries. Exclusive to Shaklee, this unique patent-pending nutrient combination is called WhiteN-16™. Added to this botanical formula is a boost of active Vitamin C as well as licorice derivatives, which go even a step further to highlight the brightness of the skin, help smooth the look of blotchiness, and impart a new radiance.

Thanks to the advanced, patent-pending WhiteN-16™, each NutriWhite® product helps to diminish the appearance of discoloration FIVE different ways. When you use the NutriWhite® System with the products in combination, this 5-way brightening power surges and intensifies. A groundbreaking innovation in skincare, NutriWhite® is pure, potent, and proven.

由日本和美国科学家及护肤专家联手研发的NutriWhite®，含有来自16个国家精挑细选的16种植物营养素，称为WhiteN-16™ 独家家授与嘉康利使用的专利配方。此植物配方也添加了活性维他命C和甘草衍生物，有助于加强肌肤美白，减少斑点及令您展现更亮丽肌肤。

NutriWhite®一系列产品都能透过5种不同的方式来解决肤色不均问题。当您使用NutriWhite®系列产品时，其美白功效更为显著。纯净、强效及经验证的NutriWhite®，的确是护肤的一大创新突破。

Kecantikan sempurna dari alam semulajadi, disempurnakan oleh Sains.

Dibangunkan oleh para saintis dan pakar penjagaan kulit di Jepun dan Amerika Syarikat, NutriWhite dengan teliti digabungkan dengan campuran nutrien yang dipilih daripada 16 buah Negara yang berlainan. Dicipta eksklusif untuk Shaklee, kombinasi nutrien unik dengan paten tertunda ini digelar WhiteN-16™. Selain itu, formula botani ini diperkaya dengan Vitamin C aktif serta derivatif akar manis, yang diproses lebih daripada satu langkah bagi menghasilkan kecerahan kulit, membantu melicinkan permukaan raut wajah agar lebih segar dan bersinar.

Terima kasih pada kemajuan WhiteN-16™ dengan paten tertunda, di mana setiap produk NutriWhite membantu dalam mencerahkan kulit kusam dan meratakan tona tidak sekata dengan LIMA cara berbeza. Bila mana anda menggunakan kombinasi produk NutriWhite, 5- Cara tindakan pencerahan tersebut akan mencerahkan kulit dengan lebih cepat dan berkesan. Satu lagi penemuan terbaru dalam inovasi penjagaan kulit, NutriWhite sangat tulen, merupakan produk berasaskan sumber alam dan terbukti keberkesannya.

Enfuselle® Skin Care

Be ahead of your time. Look 10 years behind it.

让自己比实际年龄更年轻10年!

We've applied 55 years of scientific nutrition research to develop the most advanced skin care system around. The keys to healthy-looking, radiant skin are nutrients. More important are the right nutrients, in the right amounts, and in the right form your skin can use. The foundation of Enfuselle® is our exclusive Vital Repair+® complex, a synergistic blend of seven targeted antioxidant nutrients that produces results so much greater than the sum of each individual nutrient.

我们使用了55年的营养科学研究技术，研发出市面上最先进的护肤系统之一。肌肤健康及亮丽的关键在于营养。更为重要的是要选择适合您肌肤的营养、份量及类型。Enfuselle®的基础来自我们独家研发的Vita Repair+®, 由7种被鉴定的抗氧化剂混合而成的营养，彼此产生协调的作用，使成效比单独发挥时强得多。

Berusia sebelum waktunya. Kelihatan 10 tahun lebih muda.

Kami telah menjalankan penyelidikan nutrisi selama 55 tahun untuk mencipta set penjagaan kulit yang termaju di pasaran. Ternyata Nutrisi merupakan asas bagi wajah yang sihat dan cerah berseri. Pemilihan nutrien yang betul, sukatan yang betul serta sesuai dengan diri anda juga memainkan peranan yang penting. Asas bagi produk Enfuselle ialah Vital Repair® Complex kami yang eksklusif, satu campuran sinergi tujuh nutrien antipengoksida yang memberikan hasil lebih hebat berbanding penggunaan nutrien secara berasingan.

A healthy scalp is the foundation for healthy hair. That's why each ProSanté® product contains Scalp Health Complex, a blend of 10 vitamins, minerals and herbs that provides the optimal environment for healthy, thick and vibrant hair. We chose ingredients like Swertia Extract and Ginger to stimulate circulation and provide energy for living hair bulbs; essential skin mineral like Copper, Zinc, Manganese and Vitamins A and E to support healthy scalp renewal; and Tea Tree Leaf Oil and Green Tea Extract to protect against free radical damage and other environmental stresses. And you won't find harsh chemicals that can damage hair and scalp in our hair care products.

健康的头皮是健康头发的基础。因此，ProSanté®护发产品含有令头皮健康的复合物。此复合物含有超过10种维生素、矿物质及草药，以确保头发能健康、茂密及充满活力地生长。我们选用的成份如獐牙菜提取物及生姜，能促进头皮血液循环，为发根提供活力；必需的肌肤矿物质如铜、锌、锰及维生素A和E，能支持头皮新陈代谢；茶叶精油和绿茶萃取物，能保护头皮免受自由基及环境因素破坏。我们的护发产品不含破坏头发及头皮的烈性化学物质。

Rambut sihat bermula daripada akar rambut yang subur. Itulah sebabnya kenapa setiap produk ProSanté® mengandungi Scalp Health Complex iaitu gabungan 10 vitamin, mineral dan herba bagi menyediakan persekitaran optimum untuk rambut yang sihat, lebat dan menawan. Kami memilih bahan-bahan seperti ekstrak swertia dan halia untuk merangsang peredaran darah dan membekalkan tenaga untuk folikel rambut; mineral kulit yang penting seperti kuprum, zink, mangan serta vitamin A dan E untuk membantu metabolisme kulit kepala yang sihat; dan minyak daun pokok teh serta ekstrak teh hijau untuk menentang kerosakan akibat radikal bebas dan faktor-faktor persekitaran lain. Dan istimewanya, anda juga tidak akan menemui sebarang bahan kimia kuat yang boleh merosakkan rambut dan juga kulit kepala anda dalam rangkaian produk penjagaan rambut kami ini.

Get Clean[®] Water 洁特灵滤水壶

The Real Dirt on Clean Water. Turn on your tap. Notice anything about your water? It may look clean, but exactly how safe is it?

The truth is, chemicals that can be harmful to your health can actually turn up in the water your family drinks. Chemicals such as pesticides, heavy metals, and industrial pollutants. What's more, up to 20% of human lead exposure comes from drinking water.

The good news is that cleaner, healthier water is just a pitcher way!

清洁水中的真正污垢。打开水喉，从流出来的水看见什么？
这些水表面上很干净，但它到底有多安全呢？

所谓病从口入，其实我们每天所饮用的自来水，隐藏着许多如农药、重金属和工业污染物等成分。这些看不见的化学物，渐渐地腐蚀全家人的健康。根据研究所得，人体中所隐藏的铅成分，20%源自饮用水。你们不必过于担心，更清洁和健康的饮用水，就在您左右！

***Bendasing tersembunyi pada air bersih.** Putarkan paip rumah anda. Lihat air yang keluar. Airnya mungkin nampak bersih tapi setakat manakah ianya selamat untuk diminum?*

Sebenarnya, bahan kimia seperti racun perosak, logam berat dan bahan cemar industri yang boleh membahayakan kesihatan mungkin terdapat dalam air yang anda sekeluarga minum saban hari. Tambahan pula, 20% daripada punca pendedahan plumbum terhadap manusia datangnya daripada air minuman.

Istimewanya, air yang lebih bersih dan sihat datangnya dari sebuah Jag Air sahaja!

Get Clean[®] Water

365 Days of Cleaner, Healthier Water

A fresh take on healthier water, Get Clean[®] Water is a new multipatented water filtration system. Unlike other water pitchers, Get Clean[®] Water uses a solid block of carbon to clean your water, reducing some pretty nasty contaminants – including up to 99% of lead.

Get Clean[®] Water is the first pitcher to use a refillable carbon – block filter system so there's less plastic to throw away. And it filters 303 liters (80gallon) of water per filter.

Cleaner, healthier water and a cleaner, healthier planet?

We can all drink to that!

Beats Leading Brands!

- Certified to reduce lead, mercury, cadmium and more contaminants¹ while retaining healthy minerals!
- Certified to reduce **chlorine**, thus helps to reduce harmful effects cause by its health-threatening by-products!¹
- Certified to filter 303 liters (80 gallons) - **twice as much** as leading brands.²
- First-ever pitcher with **refillable** carbon-block filter system.

The Smart Choice!

- Costs only **a few cents a liter**.
- Healthy, **great-tasting** water.
- First automatic pitcher **meter** that shows gallons filtered - no electricity is required.
- **Handy** and portable.
- Save cost - **no boiling is required**.

1. Comparison of current WQA and NSF certified reduction claims conducted on May 26, 2011, referencing Brita[®] pitchers using OB03 cartridge and PUR[®] pitchers using CFR-950Z cartridge and is valid only for the named products marketed at that time. Product data claims obtained from the NSF and WQA website certification listings. Models compared are also certified to reduce chlorine (taste and odor). "Leading Brands" defined as Brita and PUR. All trademarks are the property of their respective owners. 2. Compared to Brita and PUR pitcher filters at 40 gallons. 3. Compared to traditional carbon production.

提供您365天的纯净健康水

Get Clean® Water 的出现提升了饮用水的质量，它是全新并拥有多种专利权的滤水系统。**Get Clean® Water** 与其它滤水器不同之处就是它使用活性炭块来净化饮用水，能有效地减低水中的污染物，其中包括了99%的铅，这是其他滤水系统无法媲美的。

Get Clean® Water 是首个使用可更换碳芯的滤水系统，这种设计能减少塑胶量的使用，减少环境的污染。此外，这个活性炭块非常耐用，能过滤高达303公升（80加仑）的水。

更纯净更健康的水，和更干净更健康的地球？
现在，每个人都可享用这纯净的健康水！

比其他领先品牌更优秀！

- 已被验证，能有效滤除铅、镉和水银量¹，同时保留健康的矿物质！
- 有效滤除残留氯气，减低致癌氯副产品的危害！¹
- 保证过滤高达303公升（80加仑）的水量，效力比目前市场上销售的其它品牌高出一倍。²
- 首个使用可更换碳块滤芯系统的滤水器。

明智的选择！

- 成本效益，每公升水只需区区数分钱。
- 提供更健康及更可口的饮用水。
- 首创自动过滤器寿命计算表，自动显示过滤量的滤水器-无需用电。
- 轻盈，携带方便。
- 节省金钱 – 无需煮沸。

Air yang lebih bersih dan sihat tersedia untuk 365 hari

Get Clean® Water, merupakan sistem penapisan air multipaten yang baru. Berbanding dengan Jag air yang lain, *Get Clean® Water* menggunakan sebatang blok karbon padu untuk membersihkan air anda serta mengurangkan bahan-bahan cemar yang sukar disingkirkan termasuklah kandungan plumbum sehingga 99%.

Get Clean® Water merupakan sistem penapis jag air pertama yang menggunakan blok-karbon yang boleh diisemula. Jadi, kurangnya botol plastik yang perlu dibuang. Ia juga berupaya menapis 303 liter (80gelen) air bagi setiap turasan.

AIR yang lebih bersih dan sihat atau pun BUMI yang lebih bersih dah sihat?

Sudah tentu kita boleh menikmati semuanya!

Menandingi Jenama Terkemuka yang Lain!

- Disahkan dapat mengurangkan kandungan plumbum, merkuri, kadmium dan bahan-bahan cemar lain¹ disamping mengekalkan kandungan mineral air yang sihat!
- Disahkan dapat mengurangkan klorin, jadi ia dapat mengurangkan ancaman kesihatan yang disebabkan oleh bahan sampingan klorin!¹
- Disahkan dapat menuras 303 liter (80 gelen) air bagi setiap turasan-dua kali ganda lebih daripada jenama terkemuka.²
- Sistem Penuras Jag Air berblok- Karbon Isian Semula yang pertama

Pilihan Bijak!

- Hanya beberapa sen bagi seliter air
- Air yang lebih sihat dan rasanya yang enak
- Jag Air bermeter automatik pertama yang menunjukkan jumlah gelen air yang telah dituras- tidak memerlukan kuasa elektrik
- Ringan dan mudah dibawa
- Menjimatkan kos – tanpa perlu dimasak

首个采用循环使用的活性炭块滤芯系统，特殊的设计能保护环境，绿化地球。

The Shaklee Difference

嘉康利的与众不同之处

Perbezaan Shaklee

SAFE: “Gets the lead out” and more.

Get Clean® Water reduces many harmful contaminants that can turn up in your water. And Get Clean® Water is certified by the Water Quality Association (WQA) to reduce lead and more.¹

SMART: Only a few cents a liter.

Malaysians are pouring money down the drain by drinking bottled water. For only a few cents a liter, Get Clean® Water gives you clean, great-tasting water—with a smart meter that shows you exactly when to replace your filter. No more guessing.

POWERFUL: More clean water every time.

Get Clean® Water gets 303 liters (80 gallons) from every hardworking filter—twice as much as big-name brands²—and reduces contaminants that can actually turn up in your water and be harmful to your health.

GREEN: Keeps the planet green.

Get Clean® Water uses the first refillable carbon-block pitcher filter system, so there's less waste in the landfills. And each filter is made with our sustainable coconut shell carbon, which is better for the environment.³

安全: 高效滤除铅量和其他更多污染物

Get Clean® Water能有效地滤除水中的污染物，此滤水系统更获得了水质协会(Water Quality Association [WQA])的认证，能高效滤除水中的铅量。¹

精明: 每公升水只需区区数分钱

马来西亚人在饮用瓶装水的时候，仿佛把金钱倒进沟渠里。通过Get Clean® Water人们只需为每公升的水付出数分钱，就能换取更健康与可口的食水。首创自动过滤器寿命计算表，能显示已过滤的水量。不要犹豫，当你使用Get Clean® Water时，就是最明智的决定！

强效: 每次提供更多净水

Get Clean® Water的碳块滤芯能过滤高达303公升（80加仑）的水，效力比其他品牌过滤器高出一倍。² 此外，这强劲的滤水器能隔除蕴含在食水中有害健康的污染物，带来更健康的饮用水。

环保: 确保绿色地球

Get Clean® Water是首个采用循环使用的活性碳块滤心系统，意即减少塑料被丢弃。而每一个滤芯是由椰壳炭块制成，特殊的设计还能保护环境，带来绿色的地球。³

SELAMAT: “Menyingkirkan plumbum” dan lain-lain.

Get Clean® Water ini berupaya mengurangkan pelbagai jenis bahan cemar berbahaya yang mungkin terkandung di dalam air. Ia juga diiktiraf oleh Persatuan Kualiti Air (Water Quality Association (WQA)) yang ianya dapat mengurangkan plumbum dan banyak bendasing lain lagi.¹

PILIHAN BIJAK: Menjimatkan Kos.

Rakyat Malaysia banyak membazirkan wang dengan meminum air botol. Dengan hanya berapa sen seliter sahaja Get Clean® Water dapat memberikan air yang bersih dan rasanya yang enak dengan meter bijak yang menandakan bilakah masanya untuk anda menukar penapis tersebut tanpa perlu mengagaknyanya.

HANDAL: Lebih banyak air bersih pada setiap masa.

Get Clean® Water menghasilkan 303 liter (80gelen) daripada setiap turasan yang manadua kali ganda lebih banyak berbanding jenama lain dan mengurangkan bahan cemar yang mungkin wujud dalam air dan berbahaya kepada kesihatan anda.

MESRA ALAM: Memelihara alam sekitar.

Get Clean® Water ini menggunakan sistem Penapis Jag air dengan blokkarbon isian semula yang pertama, di mana ianya dapat mengurangkan timbunan sisa. Dan lagi, setiap penapis diperbuat daripada arang tempurung kelapa yang tahan lasak dan baik terhadap alam sekitar.³

Proof of the Products

Vivix™ key ingredients are shown to blunt the biological stress response following consumption of a high-fat fast food meal.

The Landmark Study showed that long-term Shaklee supplement users have markedly better health than single-multivitamin and nonsupplement users.

Vita-Lea® provided clinically supported levels of vitamin D. In a recent scientific study, higher vitamin D blood levels were correlated with higher vitamin D intake from supplements in a Shaklee consumer population.

Vita-Lea® improved bone density in healthy postmenopausal women. (Adequate calcium and vitamin D throughout life, as part of a well-balanced diet, may reduce the risk of osteoporosis.*)

Vita-Lea® increased blood-nutrient levels in healthy college-age women eating dietitian-designed diets.

Vita-Lea® helped elderly adults maintain good health.*

Shaklee Cinch® Inch Loss Plan supported effective weight loss without loss of lean muscle mass.†

Shaklee Cinch® Shakes helped regular exercisers gain about 25% more muscle and lose 50% more body fat than nonusers.

Shaklee Performance® extended the endurance of cyclists.

Shaklee Sustained Release Vita-C Plus™ delivered the vitamin C equivalent of one and one-half oranges every hour for five hours to the bloodstream.

Shaklee NutriFeron® enhanced immune response.*

OsteoMatrix™ significantly raised blood-calcium levels for 12 hours.†

Vivix™ 的主要成分经证实能降低食用高脂快餐后的生物应激反应。

[Landmark Study] 报告显示长期服食嘉康利产品者，明显的比服食单一综合维他命者及完全没有服食任何辅助品者来得更健康。

Vita-Lea® 所提供的维生素D水平经临床证实。近期一项科学研究发现，嘉康利消费群血液中的维生素D含量较高是与自嘉康利营养补充食品中摄取较高含量的维生素D有关。

Vita-Lea®能改善绝经后健康女性的骨质密度。（维持良好均衡的饮食习惯，长期摄取充足的钙质和维生素D，能降低罹患骨质疏松症的风险。*）

Vita-Lea®能使依循营养师规定饮食方案的大学年龄健康女性之血液养分含量增加。

Vita-Lea®能协助年长者维持良好健康。*

Shaklee Cinch® 计划有效控制体重同时保留肌肉。†

Shaklee Cinch Shake 帮助运动员增加25%更多的肌肉，消除体内50%脂肪。

Shaklee Performance® 让骑自行车选手们延长持久力。

Shaklee Sustained Release Vita-C™ 在5个小时内，平均提供每小时相等于一粒半柳橙里的维他命C。

Shaklee NutriFeron® 提高免疫系统的反应。*

OsteoMatrix™ 12个小时内明显地提高血液内的钙质。

† Based on a preliminary skin study and skin fold caliper measurements to estimate body and fat mass.

Pengesahan Produk

- Vivix™ bahan-bahan utamanya menunjukkan dapat menangkis tekanan biologi akibat pengambilan makanan segera yang tinggi.
- Kajian Kemuncak Shaklee menunjukkan yang pengguna suplemen saintifik Shaklee dalam jangka panjang telah memberikan kesihatan yang lebih baik daripada pengguna multivitamin yang lain ataupun mereka yang tidak mengambil suplemen langsung.
- Vita-Lea® mempunyai sokongan klinikal bagi paras Vitamin D. Dalam kajian saintifik terbaru, paras vitamin D dalam darah yang tinggi mempunyai hubungan dengan pengambilan Vitamin D dari suplemen yang di ambil dari populasi pengguna Shaklee.
- Vita-Lea® membantu meningkatkan kemanpatan tulang bagi kesihatan wanita peringkat pos-menopos. (Pengambilan kalsium dan vitamin D sepanjang hayat sebagai sebahagian diet seimbang mampu mengurangkan risiko osteoporosis.*)
- Vita-Lea® membantu meningkatkan paras nutrien dalam darah bagi wanita sihat di peringkat kolej yang makan dengan pemilihan diet tertentu.
- Vita-Lea® membantu orang dewasa yang berumur mengekalkan kesihatan yang baik.*

Nutrition

Subject: 12-Hour Calcium Bioavailability Study

This study assessed the serum and urine response during the initial 12 hours after the ingestion of a new calcium formulation found in Shaklee OsteoMatrix®. Changes in serum calcium were measured at nine time points (0 hr, 1 hr, 2 hr, 3 hr, 4 hr, 5 hr, 6 hr, 8 hr, and 12 hr) during the initial 12 hours following ingestion of two tablets containing a total of 500 mg calcium. At carefully timed intervals, within minutes of providing a baseline blood sample, 10 healthy volunteers ingested two supplement tablets with 125 mL of water. Results from the serum calcium assays on samples collected during the 12 hours immediately following supplementation were compared to each other and to the baseline serum calcium levels. The net changes in serum calcium during the 12 hours immediately following supplementation are presented graphically in the figure below:

These results indicate that the net increase in serum calcium levels of the volunteers increased during the initial 5 hours after supplementation and then slowly decreased through the 12-hour monitoring period. A comparison of the net changes in serum calcium during the first 12 hours following supplementation (ANOVA) determined that significant differences in the net increase of serum calcium from baseline occurred from 2 to 12 postcalcium ingestion ($P < .05$). These data demonstrate that the calcium provided in OsteoMatrix is well absorbed during the initial 12 hours following ingestion.

Weight Management

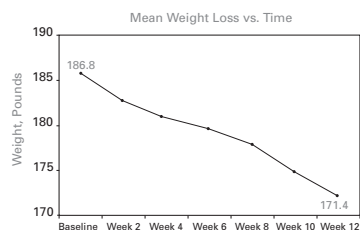

Subject: Cinch® Inch Loss Plan Clinical Study: Cinch 12-Week Safety and Efficacy Pilot Study

This pilot study was designed to determine changes in weight loss, anthropometric measurements, and estimates of body composition in an uncontrolled 12-week trial with 27 moderately overweight, but otherwise healthy, men and women. Subjects were instructed to consume two Cinch beverage shakes, three Cinch dietary supplement tablets, one Cinch nutrition bar, and a healthy meal and/or snack daily.

Eighteen participants completed the 12-week trial, of which 14 were fully compliant. Data from 14 participants show that subjects lost an average of 15.4 pounds and maintained their fat-free mass based on estimates from skinfold caliper measures. Together, these data suggest that weight loss was derived primarily from body fat and that fat-free mass was preserved. Waist and hip measurements were reduced by 4.1 and 2.6 inches, respectively, which was a significant reduction in waist-to-hip ratio, a predictor of cardiovascular disease.

In addition, favorable changes were observed in blood lipids, including a 10% drop in total cholesterol and 34% drop in triglycerides. Additionally, no significant adverse events were noted by participants over the 12 weeks, and there were no significant changes in markers of renal and liver function or blood chemistries.

These findings appear to support recent scientific evidence, which suggests that consumption of additional leucine during a weight-loss diet spares lean tissue. This trial also provides preliminary evidence that adherence to a novel weight-loss program for 12 weeks resulted in effective weight loss and improvements in anthropometric measurements.

Sports Nutrition

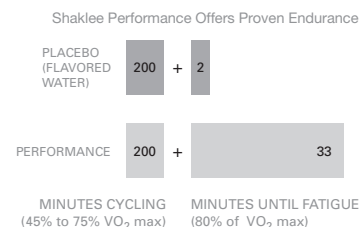

Subject: Shaklee Performance® Maximum Endurance Sports Drink Clinical Study: Shaklee Performance—Effective Hydration and More Energy

Cyclists rode stationary bicycles at 70% VO_2 max for two to three hours. Shaklee Performance, other carbohydrate-electrolyte prototypes, and water were given to the athletes at the rate of one liter per hour.

Shaklee Performance maintained blood-glucose levels significantly higher than water throughout the test period, while maintaining plasma volume equal to that of water. Shaklee Performance also maintained a higher plasma osmolality than water, helping balance thirst with fluid needs and supporting the osmotic drive to drink. It was also the best-tolerated of all the carbohydrate-electrolyte prototypes.

Clinical Study: Shaklee Performance—Maximizing Endurance

Shaklee Performance helped maintain athletes' blood-glucose levels for muscle energy and fluid levels for proper hydration. After more than three hours of vigorous cycling in the laboratory, during which time the cyclists consumed either Shaklee Performance or water, the speed was turned up even higher. At this sprint pace, Shaklee Performance drinkers endured for 33 minutes, while the water-only group lasted just two minutes.

Personal Care

Subject: Enfuselle® Product Line (Global Skin Care Program)

The introduction of the Enfuselle skin care line has been accompanied by extensive clinical testing, outlined below. For more information, contact your Distributor or Sponsor to obtain a copy of this information, or visit Shaklee.com.

Some of the Enfuselle clinical studies utilized contralateral (half-face) studies. Bioinstruments were used to objectively measure the depth of fine lines and wrinkles on one side of the face where Enfuselle was being applied, and these results were compared with the control side where no skin care products or makeup were used. The results of the tests, due in part to the rapidly changing climate conditions, were extraordinary: Where no skin care or cosmetic products were used, the visible signs of aging became measurably deeper, while the skin treated with Enfuselle products steadily improved. In addition to bioinstrumentation, subjects completed a detailed questionnaire following the tests subjectively rating the products' results.

*This section highlights important information that you may wish to review with your physician or health care professional.

Subject: Enfuselle Vital Repair+®: In-Vitro Study of the Effectiveness of a Unique Combination of Known Antioxidants, Vital Repair+, in Human Cell Cultures

Enfuselle Vital Repair+: Exhibits significant antioxidant activity in cell cultures of human skin cells exposed to ultraviolet (UV) light. This unique, patented (#6,036,946) combination of ingredients composed of vitamins A, C, and E, along with panthenol, grape seed extract, superoxide dismutase, and beta glucan, has been shown to protect against cellular death caused by exposure to the UV wavelengths of natural sunlight. The activity of this complex was found to be synergistic, that is, the activity of the complex was much greater than the sum of the activity of the individual components or the sum of the activity of those component materials.

The effectiveness of Vital Repair+ complex has been demonstrated in human cell cultures in which free radicals were generated by exposing those cultures to ultraviolet (UV) light. When compared to cell cultures exposed to the same amount of UV light but not treated with Vital Repair+ or its component ingredients, the cell cultures treated with Vital Repair+ were found to exhibit a significantly lower number of cell deaths.

All cell culture measurements were made within 48 hours following exposure of the cell cultures to the UV light. These measurements were run in triplicate for each material tested and were conducted using techniques commonly employed in cell culture technology.

The reduction in cell death was accompanied by an increased number of living (viable) dividing skin cells in the cultures treated with Vital Repair+.

Conclusion: The activity of this complex of antioxidants clearly demonstrates that Vital Repair+ is effective in blocking the complex cascade of free radical reactions brought about by exposure of skin to UV light.

Subject: Antioxidant Activity of Vital Repair+ from Enfuselle Formulations When Applied to Human Skin

Vital Repair+ in Enfuselle Formulations Provides Antioxidant Activity: A test of three of the Enfuselle skin care formulations clearly demonstrates that each formulation exhibits significant antioxidant activity when applied to the surface of intact human skin. The level of antioxidant activity was found to be significantly greater than that of control treated skin without the Vital Repair+. These results clearly demonstrate that the Vital Repair+ present in the Enfuselle skin care formulations exhibits antioxidant activity as demonstrated in the human skin cell cultures.

The effectiveness of Vital Repair+ antioxidant complex included in the Enfuselle skin care products was demonstrated in human cell cultures. However, this does not unequivocally ensure this same effectiveness when applied to human skin. Therefore, a test was conducted to show this efficacy on human skin. It is well documented that when beta carotene is exposed to long wavelength ultraviolet (UVA, 320 to 400 nm) radiation, as found in sunlight, it undergoes a free radical reaction during which it changes from an orange color to a pale yellow color. Shaklee scientists used this knowledge to demonstrate the effectiveness of

Vital Repair+ from the Enfuselle formulations. Solutions of beta carotene were applied to the forearms of human subjects and allowed to dry completely. The Enfuselle formulations were then applied to selected sites on top of the beta carotene treated sites. All test sites were then exposed to UVA light. The changes in the color of the test sites were then monitored using a Minolta™ Chromameter throughout the UVA exposure period.

The color changes in the treated and control sites were exposed to six (6) different intensities of UVA light. Based upon the Chromameter data gathered from this test, the following conclusions were drawn:

When compared to control test sites not treated with the Enfuselle formulations, the Vital Repair+ delivers the following effectiveness against UVA induced free radical reactions:

- to twice Up the antioxidant effectiveness at low UVA doses
- to three Uptimes the antioxidant effectiveness at high UVA doses

When compared to cell cultures exposed to UV light in the absence of Vital Repair+, the following data were found:

- reduction 40% in the number of cell deaths

Additionally, the reduction in the number of cell deaths in the cultures treated with Vital Repair+ was greater than any of the individual components of Vital Repair+ tested separately or the sum of their combined activities.

Conclusion: This test clearly demonstrates that Vital Repair+ protects the skin from UVA-induced color change of beta carotene, which is known to occur through a free radical pathway. Therefore, the antioxidant activity of the Vital Repair+ to protect the surface of human skin against free radical damage has been demonstrated.

Subject: Enfuselle Eye Treatment

Enfuselle Eye Treatment was evaluated under clinically controlled conditions. Twenty-three men and women between the ages of 30 and 70 used Enfuselle Eye Treatment for a period of 84 days. The product was applied to the skin around one eye, in a controlled and supervised manner. The skin around the other eye area served as the control. The treated and untreated sides were randomized to avoid bias. Subjects were allowed to cleanse only the untreated side with their normal cleanser. No makeup or other skin care products were worn. Approximately 50% of the panel were contact lens wearers. The safety of Enfuselle Eye Treatment was evaluated by a board-certified dermatologist and ophthalmologist. They found that under the conditions of the test, the product was safe for use, even by contact lens users.

Conclusion: Enfuselle Eye Treatment significantly improves skin firmness and resilience, and dramatically improves the texture of eye-area skin while significantly reducing the visible signs of aging of all skin types.

Subject: Enfuselle Hydrating and Balancing Moisturizer

Skin treated with Enfuselle Hydrating Moisturizer showed a moisturization index of 18% after 30 minutes and 6% after 240 minutes. Skin treated with Enfuselle Balancing Moisturizer showed a moisturization index of 13% after 30 minutes and 5.5% after 240 minutes.

120% increase in skin resilience and firmness in 14 days

209% decrease in visible fine lines of the skin in 56 days

223% decrease in appearance of skin wrinkles in 14 days

32% increase in retained skin moisture in 56 days

A definitive evening of skin tone in 84 days

Conclusion: Both Enfuselle Hydrating and Balancing Moisturizers provide an immediate moisture boost to skin. A boost in moisture is sustained for up to 24 hours.

Enfuselle Has Been Awarded Seven U.S. Patents with One Patent Pending

- U.S. Patent #6,015,548: "High-efficiency skin protection formulation with sunscreen agents and antioxidants."
- U.S. Patent #6,036,946: "Methods for protecting skin from damaging effects of ultraviolet light."
- U.S. Patents #6,174,519, #6,235,272: "Composition for protecting skin from damaging effects of ultraviolet light."
- U.S. Patent #6,146,664: "Stable topical ascorbic acid compositions."
- U.S. Patent #6,403,110: "Topical treatment for oily skin."
- U.S. Patent #6,723,688: "Cleanser and bar gentle to human skin."

Shaklee Milestones

1915–1979

1915 Dr. Forrest C. Shaklee develops Vitalized Minerals.

1956 Dr. Shaklee founds a company based on Living in Harmony with Nature® that is committed to developing products to improve the health of people and the planet.

1960 Shaklee introduces Basic-H® Concentrated Organic Cleaner, one of the first nontoxic, biodegradable cleaners.

1961 Dr. Shaklee creates Instant Protein®, one of the first soy protein isolate formulas.

1972 Shaklee introduces Basic-L®, one of the first biodegradable laundry detergents without phosphates, nitrates, or borates.

1980–2003

1981 Shaklee introduces the first plant-based, sustained-release delivery system for vitamin C.

1982 Shaklee becomes a Fortune 500 company.

1983 First American ascent up Mt. Everest without supplemental oxygen is powered by Shaklee nutrition.

1986 First nonstop flight around the world on the *Voyager* is powered by Shaklee nutrition.

1986 Shaklee provides financial support and products for the first recorded expedition by dogsled to the North Pole, led by *National Geographic* award-winning polar explorer, author, and educator Will Steger.

1987 Shaklee is selected by Jacques Cousteau and the Cousteau Society to provide environmentally friendly cleaning products for use aboard their research vessels, the *Calypso* and *Alcyone*.

1987 Longest human-powered flight, 72 miles across the Aegean Sea and called the Daedalus Project, is powered by Shaklee Performance®.

1989 Shaklee helps build schools and health clinics, and plants more than 1 million trees in Asia through a partnership with the American Himalayan Foundation, an organization chaired by Sir Edmund Hillary.

1990 Nontoxic and biodegradable Basic-H® is chosen as one of the first official Earth Day products.

1991 Shaklee household cleaners and personal care products are selected for use in the Biosphere 2 Project in Arizona.

1991 Shaklee introduces Basic-D®, one of the first phosphate-free automatic dishwashing detergents.

1992 Shaklee Cares®, a nonprofit organization, is established and dedicated to providing relief from natural disasters such as tornadoes and hurricanes whose severity has been compounded by climate change.

1993 Shaklee develops and supplies NASA with a customized rehydration beverage for Shuttle astronauts called AstroAde, which is still used today.

1996 Shaklee-powered world-class athletes win eight gold medals in Atlanta.

1998 Shaklee introduces Enfuselle®—one of the first nutrient-based skin care lines—which is supported by seven patents and a million dollars in clinical studies.

2000 Shaklee becomes the first company in the world to obtain Climate Neutral® certification and totally offset its carbon emissions, resulting in a net-zero impact on the environment.

2000 Shaklee opens its World Headquarters, one of the first green, energy-saving, award-winning buildings designed using sustainable materials, including certified sustainable wood, recycled carpets, and recycled plastics.

2002 Shaklee receives the Environmental Protection Agency's Climate Protection Award.

2003 Shaklee introduces Minerelles®, one of the first natural, mineral-based cosmetic lines.

Over 55 years of environmental leadership and scientific innovation

2004–Present

2004 Roger Barnett becomes Chairman and CEO.

2004 Shaklee-powered world-class athletes win 15 gold medals in Athens, Greece.

2005 Shaklee introduces one of the first interferon-boosting immunity formulas: NutriFeron®.*

2006 U.S. Ski Team and U.S. Snowboarding, Shaklee-powered athletes, win 10 medals in Turin, Italy.

2006 Shaklee holds its first-ever carbon-neutral conference in San Francisco.

2006 Dr. Wangari Maathai, 2004 Nobel Prize recipient, becomes Global Ambassador of the Shaklee A Million Trees. A Million Dreams.™ campaign.

2007 Shaklee is selected as a U.S. EPA Climate Leader and is the EPA's first consumer products company to offset 100% of its carbon emissions and use 100% green power.

2007 Shaklee becomes the first company in the world to offset its carbon emissions by providing sustainable energy to electrify villages in Africa in partnership with the Earth Institute at Columbia University.

2007 Shaklee introduces a revolutionary weight management line called Cinch®, and a safe and natural home care line called Get Clean®.

2007 Shaklee is commended by former President Bill Clinton and recognized by the Clinton Global Initiative for the company's leadership in offsetting carbon emissions by creating renewable energy in Africa.

2007 Shaklee introduces Vitalizer, with an exclusive, breakthrough delivery system with 80 bio-optimized nutrients clinically proven to create a foundation for a longer, healthier life.*

2007 Shaklee is honored with Global Green USA's Organizational Design Award for its outstanding leadership role in effecting positive environmental change.

2007 The largest study of long-term supplement users conducted in collaboration with researchers from the UC Berkeley School of Public Health determines that people who took Shaklee supplements had markedly better health than people who took either no supplements or other brands of multivitamins.

2008 Shaklee is awarded the Stevie for Best Corporate Environmental Responsibility Program by the American Business Awards.

2008 Shaklee launches Tru-Infinity™, the first patent-pending compensation plan to reward through true infinity.

2008 Shaklee Get Clean® Basic H2O and Dish Wash concentrates win the PTPA (Parent Tested Parent Approved) Media Inc. Seal of Approval.
