Get Clean® Germ Off+ Wipes FAQ

What are Germ Off+ Wipes?

Get Clean® Germ Off+ Wipes are disinfectant wipes effective against bacteria and viruses on hard, nonporous surfaces. No rinsing or wiping is required, even on food contact surfaces, after disinfection with Germ Off+ Wipes.

How do I use this product?

Note: "Visibly wet" contact time varies with intended use. Please see instructions below.

- To clean and deodorize: Wipe surface¹ with wipe. Let air dry. Discard used wipe in trash. Do not flush in toilet.
- To clean and disinfect/virucidal instructions: Wipe surface¹ with wipe until surface is visibly wet. Allow surface to remain wet for 5 minutes. No rinsing or wiping is required (even on food contact surfaces). If surfaces are visibly dirty, clean first with another wipe before disinfecting. Discard used wipe in trash. Do not flush in toilet.
- The required contact time to clean and disinfect for SARS-CoV-2 is shorter. For Measles Virus and/or SARS-CoV-2, treated surfaces must remain visibly wet for 1 minute.

Why is it important for surfaces to be "visibly wet"?

A wet surface ensures contact between the disinfectant and the bacteria and/or viruses.

Are Germ Off+ Wipes effective against the coronavirus/COVID-19?

The disinfectant in Germ Off+ Wipes kills the COVID-19 virus. Use instructions for disinfection.^{1,2} Visibly wet contact time for COVID-19 virus is 1 minute.

Do I need to use gloves while using Germ Off+ Wipes?

No.

Are Germ Off+ Wipes safe in any room of the house? On food surfaces?

Yes. Germ Off+ Wipes are safe to use without rinsing in kitchens, on food surfaces. They can be used on toys, car seats and other hard, nonporous surfaces. Discard used wipes in the trash. Do not flush.

What is the shelf life of Germ Off+ Wipes?

The shelf life for this product is 1 year.

¹On hard, nonporous surfaces

²SARS-CoV-2
