FAQ

What are EPA and DHA and why are they important?

EPA (eicosapentaenoic acid) and DHA (docosahexaenoic acid) are omega-3 fatty acids that are abundant in fish, such as salmon, tuna, mackerel, and some algae. They play an important role in normal human growth and development and have benefits to human nutrition and health for all ages and across the life span.

How much EPA and DHA are in a serving of Vegan Omega-3?

Vegan Omega-3 contains 400 mg DHA and 100 mg EPA per serving (2 softgels).

What's the serving size?

It is recommended that adults take 2 softgels daily with meals.

Can I give Vegan Omega-3 to my kids?

Yes. Children old enough to swallow capsules may use Vegan Omega-3.

I'm using blood-thinning medications. Can I take Vegan Omega-3?

Please consult your physician before taking Vegan Omega-3. Discontinue use two weeks before surgery.

Is Vegan Omega-3 Non-GMO?

Yes. Vegan Omega-3 is Non-GMO.

Does this product contain gluten, soy, or lactose?

No. Vegan Omega-3 is free of gluten, soy, and lactose.
