

Calcium, Magnesium, and Vitamin D for Healthy Bones and More

CHEWABLE CAL MAG PLUS

New formula with a naturally delicious orange flavour and reduced chalkiness.

With 1,300 mg calcium, 200 mg magnesium, and 15 mcg (600 IU) vitamin D₃ per 4 tablets, Chewable Cal Mag Plus helps build strong bones and potentially reduces the risk of osteoporosis when combined with regular exercise and a healthy diet. Vitamin D also helps support immune function while magnesium helps to maintain heart muscle function and normal electrolyte balance.

#57393 | 120 TABLETS

GREAT NEW FLAVOUR, SAME POWERFUL BENEFITS

Calcium, Magnesium, and Vitamin D for Healthy Bones and More

FAQs

What nutrients does Chewable Cal Mag Plus provide?

Chewable Cal Mag Plus delivers three essential vitamins and minerals: calcium, magnesium, and vitamin D₃. One serving (4 chewable tablets) delivers 1,300 mg calcium, 200 mg magnesium, 15 mcg (600 IU) vitamin D₃.

What form of calcium is used in Chewable Cal Mag Plus?

Calcium carbonate and calcium citrate are both good sources of calcium. Calcium carbonate was chosen for Chewable Cal Mag Plus because it is a more concentrated form of calcium. As a result, this product is able to deliver 1,300 mg of calcium in only 4 chewable tablets.

How is this product new and improved?

Chewable Cal Mag Plus has a great new flavour (a naturally delicious orange flavour), reduced chalkiness, and a reduced serving size (4 chewable tablets vs. 5 chewable tablets), all while delivering the same powerful benefits as our old formula.

Is the orange flavour natural?

Yes.

Is Chewable Cal Mag Plus suitable for people with specific dietary restrictions or preferences?

Chewable Cal Mag Plus is vegetarian, dairy-free, gluten-free, soy-free, and Star-K kosher. However, it is not vegan as the vitamin D₃ is sourced from lanolin – the oil in sheep's wool.

Can I take Chewable Cal Mag Plus with my medications?

If you are taking medications, we always recommend you talk to your physician and/or pharmacist prior to using supplements.

Can I give Chewable Cal Mag Plus to my kids?

Yes. Chewable Cal Mag Plus can be used by kids ages 4 and over. Children 4–8 should take 2 tablets per day, preferably with food a few hours before or after taking other medications or natural health products.

If I am pregnant or nursing, can I take Chewable Cal Mag Plus?

If you are pregnant or nursing, we always recommend that you talk to your health care professional before using supplements.
