

# Optiflora® Prebiotic and Probiotic

## Everyday support for digestive health

With busy schedules and meals on the go, it's often a challenge for many to maintain a healthy digestive balance.

Optiflora is a **unique two-product digestive health system** that provides dietary support for normal, healthy intestinal microflora to **help maintain a healthy digestive balance**. Once the probiotics are delivered to the digestive system, prebiotics can deliver important nutrients that healthy intestinal bacteria need to grow and thrive.

**Optiflora Prebiotic** helps:

- Provide the intestinal tract with nutrients that nourish friendly microflora

**Optiflora Probiotic** guarantees:

- The delivery of *B. longum* and *L. acidophilus* to the lower intestine via a state-of-the-art triple-encapsulation technology that protects the helpful bacteria so that they arrive alive in the intestine – every time

### IS OPTIFLORA RIGHT FOR YOU?

- ✓ If you're interested in a natural, gentle way to maintain a healthy balance of naturally occurring beneficial intestinal microflora.
- ✓ If your dietary choices may affect the balance of gastrointestinal microflora.
- ✓ If you're planning foreign travel.

### Optiflora Probiotic – Potency Advantage

- Uses triple-layer encapsulation technology designed for live delivery of probiotics to the large intestine, where they provide the greatest benefit

- Seamless outer shell protects microflora against stomach acid
- Middle layer protects microflora against oxygen and moisture
- Inner core protects and holds microflora until released in the intestine
