HOW LONG WILL THESE PRODUCTS LAST?
They’re sized for 60-days’ use, morning and night.

WHAT’S THE FRAGRANCE IN THESE PRODUCTS, AND IS IT NATURAL?
The fragrance in YOUTH products is natural (i.e., we use no synthetic ingredients), and is a blend of natural essential oils.

IS THIS SAME FRAGRANCE IN ALL PRODUCTS?
The fragrance in the Luminous Gel Oil Cleanser and the Perfecting Skin Toner is different from the fragrance in the rest of the treatment products in that we’ve included additional citrus-based essential oils that help provide a more purifying experience during the cleansing and toning steps of the regimen.

IS THE FRAGRANCE HYPOALLERGENIC?
All YOUTH products were tested and shown to be hypoallergenic.

WHAT DOES “CLINICAL RESULTS WITHOUT COMPROMISE” MEAN?
YOUTH offers clinically proven products created in harmony with nature, bringing you clinical results without compromise. All these products were created without harmful chemicals and the 2,500-plus questionable ingredients found in so many other products. We’ve proven that you don’t have to sacrifice safety and purity for efficacy. At Shaklee, we screen each new botanical ingredient for more than 350 contaminants, and we perform more than 100,000 quality tests per year to ensure our products are safe. The YOUTH collection is 100% vegan and cruelty free. For more information, visit our Naturally blog at go.shaklee.com/naturally.

WHAT’S THE SKIN AGE INDEX?
The Skin Age Index was clinically developed by world-class skin experts and can be used to measure the appearance of key signs of aging based on factual clinical data. It provided us a way to measure whether YOUTH could actually shift the appearance of women’s skin to a younger age. And we’re the first brand in the marketplace to use this index to put our products to the test in such an objective and scientific way.

WHAT’S THE DIFFERENCE BETWEEN THE YOUTH ANTI-AGING REGIMEN AND THE ADVANCED ANTI-AGING REGIMEN?
The Advanced Anti-Aging Regimen contains all the same products as the Anti-Aging Regimen, plus the Youth Activating Serum – the must-have product of the line, which contains a 10-times concentration of our patent-pending Youth Complex to accelerate skin cell renewal to a more youthful rate.

HOW MUCH OF EACH PRODUCT SHOULD I BE USING?
- Luminous Gel Oil Cleanser: dispense a pea-sized drop onto your hands and work into a very light lather.
- Perfecting Skin Toner: saturate a gauze or cotton pad or ball and gently sweep over face.
- Youth Activating Serum: dispense 1 pump onto fingertips and smooth gently over entire face.
- Mineral Defence Moisturizer SPF 30: apply a nickel- to quarter-sized drop onto fingertips, dot face all over, and smooth into skin. You may notice a slight whitish tint, which will dissipate once the moisturizer is fully absorbed.
- Advanced Renewal Night Cream – Light or Rich: apply a dime-sized amount to face and neck each evening after Youth Activating Serum has fully absorbed.
ARE THESE PRODUCTS FOR ALL SKIN TYPES?
Yes. All YOUTH products were formulated for all skin types.

Youth Activating Serum: formulated for all skin types, although those with extremely sensitive skin or those who’ve never used retinol before should begin use gradually until the skin accommodates. Apply once at nighttime starting every other day for the first 2 weeks. Then, gradually increase to once at nighttime every day for a week and ultimately twice a day every day. If you notice flaking or peeling, it’s a sign that the product is working! Just reduce usage to once every 2 to 3 nights until flaking subsides, then resume daily use. Your skin will adjust, and most people will continue use without any issues.

Advanced Night Renewal Night Cream: there are two formulas – Light, for those with normal to oily skin types; and Rich, for those with drier skin. Remember that seasons and climate can affect your skin, and you’ll likely need to adjust your skin care regimen based on these conditions.

ARE YOUTH PRODUCTS SAFE FOR SENSITIVE SKIN TYPES?
Yes. All YOUTH products are safe for those with sensitive skin. They’re also dermatologist tested, non-comedogenic (won’t clog pores), hypoallergenic, and ophthalmologist tested as suitable for contact lens wearers.

MY SKIN TENDS TO BE SENSITIVE. IS THERE ANYTHING I SHOULD KNOW OR DO DIFFERENTLY?
All YOUTH products are formulated to be in harmony with nature, dermatologist tested, 100% vegan, and cruelty free to provide clinical results without compromise. If you’ve experienced skin sensitivities in the past, we recommend that you begin with using the Youth Activating Serum once in the evening versus the recommended two times a day. If you notice flaking or peeling, reduce use to once at night every 2 to 3 days.

IS THE ENTIRE LINE GLUTEN FREE?
Yes. The entire YOUTH line is gluten free.

DO YOUTH PRODUCTS USE NANOTECHNOLOGY?
No. All YOUTH products are considered non-nano.

DO YOUTH PRODUCTS USE MICROBEADS?
No. YOUTH products don’t contain any microbeads.

LUMINOUS GEL OIL CLEANSER

THE LUMINOUS GEL OIL CLEANSER DOESN’T LATHER OR FOAM VERY MUCH. IS THAT NORMAL?
Yes. It’s a gentle formula that produces a fine lather.

WHY DOES THE LUMINOUS GEL OIL CLEANSER CONTAIN OIL? IT DOESN’T SEEM LIKE IT WOULD CLEAN MY SKIN.
The Luminous Gel Oil Cleanser is a unique formula that combines the makeup-removing and moisturizing action of a cleansing oil with the cleansing properties of a gel cleanser.

WHAT KIND OF OIL IS USED IN THE CLEANSER?
Avocado oil.

PERFECTING SKIN TONER

MY SKIN TINGLES SOMETIMES AFTER USING THE PERFECTING SKIN TONER. IS THAT NORMAL?
Some individuals may experience a slight tingling sensation after use. It’s a sign that the product is working to purify and cleanse the skin.

YOUTH ACTIVATING SERUM

MY SKIN CAN FEEL A LITTLE STICKY AFTER USING THE SERUM. IS THIS NORMAL?
You may be using a little too much. Try using just 1 pump of the serum and allow it to fully absorb before applying the Mineral Defence Moisturizer SPF 30 and the Youth Activating BB Cream SPF 30.

I’M HAVING DIFFICULTY REMOVING THE TOP OF THE YOUTH ACTIVATING SERUM CONTAINER, AND I WANT TO USE EVERY DROP. WHAT CAN I DO?
The airless packaging is designed to dispense all product from the container. A small disk is located on the inside bottom of the bottle and moves up with each pump, dispensing product from the top of the package. If you pump and product is no longer being dispensed, all the product has been dispensed.
I NOTICED THAT MY SKIN IS FLAKING. IS THAT NORMAL?
Some individuals, especially those with extremely sensitive skin or those who haven’t used retinol before, may experience dryness and flaking during the first few weeks of using the serum. This is normal and a sign that the product is working. Youth Activating Serum has a gentle encapsulated vitamin A retinol that works to accelerate skin’s cell-renewal cycle. The flaking is a result of your skin removing dead skin cells so that healthy, new cells can replace them. Your skin should accommodate to use within the first few weeks if you experience flaking. If flaking does occur, decrease the frequency of use. If using twice a day, decrease to once a day or even once every other day.

BECAUSE THE YOUTH ACTIVATING SERUM CONTAINS VITAMIN A RETINOL, CAN I USE DURING PREGNANCY OR NURSING?
Retinol is a form of vitamin A. It’s advised to avoid excessive exposure to vitamin A during pregnancy and breastfeeding. As such, we recommend that you consult with your health care practitioner before using the Youth Activating Serum during pregnancy and breastfeeding.

ADVANCED RENEWAL NIGHT CREAM (LIGHT OR RICH)

HOW DO I KNOW WHICH ONE TO SELECT FOR MY SKIN TYPE? OR TO RECOMMEND TO OTHERS?
If you aren’t sure, it’s always best to begin with a lighter formulation (Advanced Renewal Night Cream – Light) and then change to the Rich formula if you feel you require more moisture.

RADIANCE C+E HYDRATING SERUM

DO I USE THIS PRODUCT IN THE MORNING OR NIGHT?
The Radiance C+E Hydrating Serum capsules can be used either morning or night.

HOW DOES THIS PRODUCT FIT WITHIN THE REGIMEN?
Use after Perfecting Skin Toner and before Youth Activating Serum.

WHY IS THIS PRODUCT PACKAGED IN SINGLE-DOSE CAPSULES?
It’s packaged this way for convenience and to allow for a preservative-free formula. The capsules are also plant based, vegan, and 100% biodegradable.

I’M ALREADY USING THE ADVANCED ANTI-AGING REGIMEN. WHY WOULD I ADD THIS PRODUCT?
Enhance your regimen results with Radiance C+E Hydrating Serum. This is an intensive specialty treatment product that provides additional anti-aging benefits, including reduction of the appearance of fine lines and wrinkles and improvement in skin texture. It also provides brightening, lightening of dark spots, and radiance.

YOUTH ACTIVATING BB CREAM SPF 30

HOW DO I KNOW WHAT’S THE RIGHT SHADE OF BB CREAM FOR ME? FOR OTHERS?
The YOUTH Shade Card is a great tool to quickly and efficiently determine the BB Cream that best suits your or your customer’s needs. If your shade falls between two of the shade colours, we suggest ordering both to mix your perfect colour.

Note that two shades – Light and Dark – are currently unavailable to order in Canada. (Only Light-Medium and Medium are available at this time.) To order Light or Dark, you must use the U.S. Pre-Order form – http://images.shaklee.com/canada/us-preorder-form-mp-e.pdf – and will receive your product in October 2017.
