		Advanced Anti-Aging Regimen #79453		•	*	•	

T-zone:
forehead, nose, and chin

* Use as a sleep mask once or twice a week by mixing a capsule with the night cream of your choice.

+ Oily skin types may still require hydration, especially if you're using an acne treatment, which may dry skin.

Your skin condition may change seasonally and anytime during your life. By selecting the right product regimen and customizing for your skin needs, you should achieve healthy, glowing skin year round – and for a lifetime.
