

Getting started

Lift lid and use as handle to remove cap from canister. Then remove seal. Find the wipe at the very center of the roll, pull it up, and push it through the opening. Put the cap back on the canister. To grab a wipe, pull it slightly to the side. Remember to snap the lid shut when you're finished so the wipes don't dry out.

Directions for best results

When doing windows and mirrors, follow with a dry cloth. Toss dirty wipes in your recycling bin.

Uses

kitchen	appliances countertops sinks
bathroom	mirrors tiled walls toilet seat tub
automobile	window dashboard vinyl seats

Wipes

We believe in a cleaner that doesn't leave behind more toxins than the toxins it's supposed to clean. We also believe in cleaning surfaces faster than you can say Basic H². Say hello to our popular multitasker, now in a quick wipe. Then say goodbye when you toss it out, because it's also biodegradable.
