

Enhances immune function*

Vitamin C plays a critical role in maintaining the body's natural antioxidant defense against cell damage, thereby supporting immune function. It is also key to maintaining tooth, gum, bone, muscle, and blood vessel health.*

Since our bodies cannot make or store vitamin C, it needs to be replenished daily. Chewable Vita-C has a great citrus taste and each tablet provides the vitamin C equivalent of 1½ oranges with zero sugar. Ideal for children or anyone who has problems swallowing tablets.
