

# GET CLEAN® Water

## Clean Credentials

**Certified to reduce lead, mercury, and cadmium<sup>1</sup>**

**First refillable carbon-block pitcher filter system**

**80-gallon filter life is double that of leading brands<sup>2</sup>**

**One Get Clean Water Filter Refill replaces more than 600 16.9 fl. oz. bottles of water<sup>3</sup>**

**Patented anti-microbial product protection for improved filter life and performance<sup>4</sup>**

**Proprietary Eco Carb process uses sustainable coconut shell carbon and saves more than 4,000 pounds of CO<sub>2</sub> emissions per ton of processed carbon<sup>5</sup>**

**80-GALLON  
FILTER LIFE**

## GET CLEAN® Water Filter Refill 1-Pack (Refillable Filter Housing Kit Sold Separately)

Certified to improve taste and reduce lead, mercury, and cadmium

**With Protect+Plus™**  
Water Filtering Technology and Eco Carb Process  
See side panel for specific reductions.

Safe for you, your home,  
and your planet.\*

1 FILTER

**This filter, when used with a Get Clean® Water Pitcher, is certified to reduce the following contaminants:**

### Aesthetic Chlorine Taste and Odor

#### Sediment

- Nominal particles class III

#### Disinfection By-Products\*\*

- Total trihalomethanes (TTHMs)
  - Chloroform
  - Bromoform
- Haloacetonitriles
- Haloketones

#### Agricultural Pollutants\*\*

- Atrazine
- Carbofuran
- Methoxychlor
- Endrin
- 2,4-D
- Alachlor
- Dinoseb
- Simazine
- Lindane
- 2,4,5-TP (silvex)

#### Heavy Metals

- Lead
- Cadmium
- Mercury

#### Industrial Pollutants\*\*

- Benzene
- O-dichlorobenzene
- Tetrachloroethylene
- 1,2,4-trichlorobenzene
- Hexachlorocyclopentadiene
- Styrene
- Carbon tetrachloride
- Hexachlorobutadiene
- 1,1,1-trichloroethane
- Chlorobenzene
- 1,2-dichloroethylene
- Toluene
- Xylenes
- Ethylbenzene
- Trichloroethylene
- 1,1,2-trichloroethane

\*\*VOC surrogate claim.

### NSF/ANSI Standards

Filter Tested and Certified by Water Quality Association (WQA) to NSF/ANSI Standard 53 for Get Clean Water Pitcher System (#52114) for Lead, Cadmium, Mercury, and VOCs.

Filter Tested and Certified by Water Quality Association (WQA) to NSF/ANSI Standard 42 for Get Clean Water Pitcher System (#52114) for Aesthetic Chlorine, Taste and Odor Reduction, and Particulates.

Please see Performance Data Sheet for Get Clean Water Refillable Filter Housing Kit (#52117) for complete listing of contaminants reduced.

Get Clean Water Filter Refill 1-Pack (#52115)

## GET CLEAN® Water Filter Refill 1-Pack

Introducing Get Clean® Water, a multipatented water filtration system that helps to clean your water by reducing contaminants that can be hazardous to your health.

Each filter can handle up to 80 gallons—twice as much as the typical filter\*—and a proprietary meter allows you to see how much cleaner, healthier water you're drinking, gallon for gallon.

Plus, Get Clean Water features an exclusive carbon-block filter system that uses sustainable coconut shell carbon made with a zero-emission process. And thanks to the reusable, refillable filter housing and pitcher, you're saving a whole lot of effort and plastic. Not to mention boatloads of cash.†

So go ahead. Take that cool drink of water. And when you do, know that you are drinking water that not only tastes great, but reduces some pretty nasty contaminants. (Yes, lead included.)

We'll drink to that!

**Use the Water Filter Refill 1-Pack with these Get Clean products:**

- Water Pitcher (#52114)
- Water Refillable Filter Housing Kit (#52117)

\*Compared to leading brands at 40 gallons. †Based on annual water usage of 240 gallons and MN pricing of Get Clean Water Pitcher system plus three filters, compared to corresponding volume of bottled water at the average price of 16.9 fl. oz./24 ct. water bottles.

DISTRIBUTED BY SHAKLEE CORPORATION  
4747 WILLOW ROAD, PLEASANTON, CA 94588  
MADE IN INDIA

WD613A

<sup>1</sup>See side panel for specific reductions.

<sup>2</sup>Compared to leading brands at 40 gallons.

<sup>3</sup>Single filter used with Get Clean® Water Pitcher has water filtration capacity equal to volume contained in more than 600 16.9 fl. oz. bottles.

<sup>4</sup>Anti-microbial product protection improves filter life and performance. The presence of anti-microbial technology in the filter components is not intended to purify drinking water but to fight the growth of bacteria on the filter, which could adversely affect filter life and performance.

<sup>5</sup>Compared to traditional carbon production.
