AVISO IMPORTANTE: Lea la hoja de datos de rendimiento del fabricante.

Do not use this product with water that is microbiologically unsafe or of unknown quality without adequate disinfection. Please consult your local water provider for actual water quality; if you have a well, have your water tested by a qualified water testing laboratory.

To order, call 1.800.SHAKLEE

Item #52114

Patented: 8,480,882

Proprietary automatic filter life meter shows number of gallons filtered so you know exactly when to change your filter

Built-in filter life meter in fill lid

Replace filter, reset meter when "80" is centered in window

Food-safe, BPA-free plastic

Proprietary anti-microbial product protection for improved filter life and performance*

10-CUP CAPACITY

*The presence of anti-microbial technology in the filter components is not intended to purify drinking water but to fight the growth of bacteria on the filter, which could adversely affect filter life and performance.

GET CLEAN® Water Pitcher

Introducing Get Clean® Water, a multipatented water filtration system that helps clean your water by reducing contaminants that can be hazardous to your health.

Each filter can handle up to 80 gallons—twice as much as the typical filter*—and a proprietary meter allows you to see how much cleaner, healthier water you're drinking, gallon for gallon.

Plus, Get Clean Water features an exclusive refillable carbon-block filter system that uses sustainable coconut shell carbon made with a zero-emission process. And thanks to the reusable, refillable filter housing and pitcher, you're saving a whole lot of effort and plastic. Not to mention boatloads of cash.†

So go ahead. Take that cool drink of water. And when you do, know that you are drinking water that not only tastes great, but reduces some pretty nasty contaminants. (Yes, lead included.)

We'll drink to that!

Use the Water Pitcher with these Get Clean products:

- Water Refillable Filter Housing Kit (#52117)
- Water Filter Refill 1-Pack (#52115)
- Water Filter Refill 3-Pack (#52116)

This pitcher, when used with a Get Clean® Water Filter, is certified to reduce the following contaminants:

Aesthetic Chlorine Taste and Odor

Sediment
