

Lift your mood*

Provides a unique blend of herbals to provide dietary support for a positive mental outlook and sense of well-being after 4–6 weeks of use.* With Siberian ginseng and inositol to support the activity of St. John's Wort by playing an active role in the proper transmission of nerve signals.*

Four capsules supply 900 mg of standardized St. John's Wort extract (including both hypericin and hyperforin). Many people find the appropriate serving size to be half and even a quarter of this amount. This is why the directions offer a range of 1–4 capsules.

• GLUTEN FREE

CAUTION: Not recommended for children or to treat severe depression. If you are pregnant, nursing, or taking any prescription medications, consult your physician prior to use. May cause skin photosensitivity.

Seal under cap for your protection.
See bottom for exp. date.
