GET CLEAN®
Nature Bright®
 Laundry Booster
 and Stain Remover

Babies. Grass. Mashed potatoes and gravy. Some really nice things can cause some really nasty stains. Some really nice things can also get them out. Natural enzymes and active oxygen re-brighten laundry, de-stain upholstery, and way more. No smelly bleach. Nice.

Clean Credentials

- Contains biodegradable ingredients**
- No Phosphates**
- Not tested on animals**

Directions for best results

Dissolve in warm water and use within six hours. Don't let undissolved Nature Bright touch wet fabric. Check fabric label instructions. Test for colorfastness (especially nylon and acetate): Apply a solution of 1/2 teaspoon of Nature Bright dissolved in 2 cups warm (not hot or boiling) water to a hidden area. If color doesn't bleed or fade, proceed with use. Do not use on silk or wool. **Not for use on carpets and rugs.**

|---|--|--|
| laundry medium/high-efficiency (HE) loads | | Add 1/2 scoop (1 tbsp.) directly into washer before loading laundry. |
| large loads | | Add 1 scoop (2 tbsp.) directly into washer before loading laundry. |
| soaking | | 2 scoops (4 tbsp.) per 1 gallon water.
Add your dirty stuff. Soak 1-6 hours, then rinse or wash well. |
| general stain removal | | 1 scoop (2 tbsp.) per 16 oz. cold water.
For water-washable upholstery, fabrics, and surfaces, put solution right on the stain. Wait 1-5 minutes. Blot it up with a white towel. Repeat if you have to. Rinse well and let dry. |
| outdoor usages awnings, sidings, lawn furniture, and decks | | 1 scoop (2 tbsp.) per 1 gallon water.
Pour or sponge onto surface, working on small areas so solution doesn't dry on surface. Allow solution to stand for 5-30 minutes, depending on severity of stain. Scrub as required and rinse well with cool water. |

For ease of use, purchase a Nature Bright Dispenser (#50413).
