

With Shaklee Loyalty Rewards, never run out of your must-haves. Earn free products. And get a free birthday gift!

In this tutorial, you'll learn how, starting with how Members earn Loyalty Points.

Simply set up a monthly Loyalty Order of \$100 or more-in Canada, \$150 or more.

In Months 1 through 3, you'll earn 5% of your qualifying order total as points. In months 4 through 6, 10%. And in month 7 and beyond, it's 15%. Every Loyalty Point you earn is worth \$1 in free product! And you can customize the contents of your order as often as you like; as long it's \$100 or more, you'll keep earning points.

For example, here's a Member Loyalty Order for over \$100 in products. Once you click "checkout" just scroll down past your Order Summary to find your Rewards Summary. It's that simple!

There are two ways to check your Rewards Balance: The first way is: right after you login to Shaklee.com, scroll down to the My Rewards summary. It shows your current tier, points balance and what points are expiring and when.

The second way is in your Profile, so back at the top, click on the hamburger menu in the top left corner. Now click on your profile icon and in the profile menu, click on My Rewards.

There are 3 sections to this page: Your Points Balance, which shows your current balance and how many points are going to expire next and when. Your Rewards Tier, which shows your current tier, in this case, 5%. And then your Rewards Activity where you can keep track of earned and redeemed points by date and order.

And redeeming those points for free products is simple. When you're shopping at Shaklee.com, look for the Redeem toggle at the top of your cart. Remember, you must have enough points to redeem the entire product -in this case, we have a balance of over 91 points, which is more than enough.

When you click on it, the page reloads. So, we select the quantity of items we want to redeem points for, and then click Update Points. When the page reloads, it updates the Points Balance and Points Redeemed shown on the order summary.

When you click checkout, you'll see these again in the Order Summary, Rewards Summary and on your Order Confirmation.

To automatically receive your free gift with your qualified Loyalty Order during your birthday month, make sure your birthday is in your profile. If your birthday's not on file, back at the top of My Rewards, you'll see this reminder. Click the link and click Edit. Once you've updated the Birthday field, click update and Happy Birthday to you!
